Annual Report
June 30, 2007

Joseph P. Ford
1978 to 2008

With the March 2008 Town Meeting, Joe Ford completes 30 years of service to Lee as a Selectman. Joe has chosen to retire at the three-decade mark, saying that thirty years represents a good round number and that he is ready for a bit of rest from this demanding position. Over the years, he has worked with many other Selectmen and town committees to help make Lee the livable and special town it is today. Joe is proudest of his contributions to land conservation in Lee, citing the town's remarkable record in protecting its forests, farms, aquifers, and open spaces. He is also known for his detailed and clear budget presentations at Town Meeting.

"I plan to work on some writing, and also finish putting my own land into a conservation easement," Joe says. Joe owns about 75 acres of land on Garrity Road abutting the Oyster River in northern Lee. He has lived in Lee since 1956. During his 30-year tenure as Selectman, Joe has seen the town's population grow from about 2,000 to more than 4,500. "When I first moved to Lee, it was a small agricultural community. Now it is a growing suburb, struggling to protect the best of its past, while providing necessary services to its residents," Joe says.

Joe Ford was born in 1929 in Arlington, Massachusetts, the son of emigrants from County Cork, Ireland. His family moved to Alton, NH, when he was four and he grew up in Alton and Wolfeboro, graduating from Brewster Academy in Wolfeboro in 1948. He then worked at the First National and A&P grocery stores in Wolfeboro for several years before enrolling at the University of New Hampshire. In 1956, he graduated from UNH, cum laude, with a major in political science.

While attending UNH, he also served two terms in the NH State Legislature as a representative from Wolfeboro. He was the youngest member of the NH House of Representatives (he was 21 when first elected) and served in his second term as vice-chair of the House Education Committee.

Joe went on to receive a Master's degree in Public Administration from Harvard's Graduate School of Public Administration in 1958. In 1959, he received a Congressional Fellowship from the American Political Science Association and worked for a year on Capitol Hill in Washington, D.C., as in intern on the staffs of Congressman Perkins Bass of New Hampshire and Senator Clifford Case of New Jersey. Starting in 1960, Joe Ford taught at UNH for over thirty years, serving on the faculty of the Political Science Department and offering courses in American national, state, and local government.

In addition to his work as a Selectman, Joe served on the Town of Lee's Advisory Budget Committee for a total of 30 years. He also served on the East-West Highway Committee and the Oyster River School Budget Committee and was a member of the Lee Heritage Commission. For several years, he was on the Board of Directors of the New Hampshire Municipal Association, where he was a strong advocate of local home rule. Joe says, "The Town of Lee has been fortunate over the years in having good Boards of Selectmen. The board members have a long tradition of being able to disagree with others without being disagreeable. They also try to be civil to the public and to serve the best interests of the community."

The Town of Lee is grateful to Joe Ford for his thirty years of exceptional service to the town. Thank you, Joe, from your friends, neighbors and fellow citizens.

Joan Seeley
1931-2007

Joan Seeley always took great pride in the fact that she was a direct descendant, on her mother's side of the family, of five Mayflower Pilgrims, including the famous Elder William Brewster.

Although born in Haverhill, Massachusetts, she lived most of her life (64 years) in Lee, having moved here with her parents when she was only twelve. Joan's mother was the sister of Euna Keniston, the wife of a prominent dairy farmer and public official in Lee.

Joan attended Lee's one-room school house (now the Town Hall), where her aunt, Euna Keniston, taught classes, and later went to Newmarket High School (at that time the Oyster River Cooperative School District did not exist, and Lee had no high school.)

Like her husband Derek, Joan became an active resident of the Lee community. A long-time member of the Lee Church Congregational, she served as president of the Lee Woman's Club, and was a life-time member of the Lee Historical Society. She also served for more than twenty years as chairperson and supervisor of the Town of Lee voters checklist, a vital, though often unappreciated position in the N. H. local government.

Joan's interest in New England history and family genealogy also lead her to become a life-time member of the Martha's Vineyard, Barre, Hardwick and Petersham historical societies of Massachusetts.

Joan especially enjoyed her many trips across "the big pond" to visit her family relatives in England. Like her Pilgrim ancestors, she was deeply responsive to the needs and concerns of her family, her friends, and her community.

TOWN OF LEE NEW HAMPSHIRE
Minutes of the 2007 Town Meeting
March 13, 2007 – March 15, 2007

The March 2007 Lee Town Meeting was called to order at 8:00 a.m. at Mast Way School by Moderator Dale T. Swanson. Mr. Swanson read the Town Warrant: To the inhabitants of the Town Lee, County of Strafford, State of New Hampshire, qualified to vote in Town affairs: You are hereby notified to meet at the Mast Way School on Tuesday, the thirteenth day of March 2007 to act on the following subjects:
(Polls will open from 8:00 A.M. to 7:00 P.M.)

1. To choose all necessary Town Officers for the ensuing year.

2. To see if the Town will vote to adopt the changes proposed to the Lee Zoning Ordinance and/or Building codes.

Present were Moderator Dale Swanson, Assistant Moderator J. Phillip Stetson, Supervisors of the Checklist, Clara Kustra, Marian Kelsey, and Carla Corey, Town Clerk/Tax Collector, Linda R. Reinhold, and Assistant Town Clerk/Tax Collector, Mary Blair.

Sworn in as Ballot Clerks were Jacqueline Neill, Janice Neill, Patricia Jenkins, Melvin Jenkins, J. Derek Seeley, Laura Gund, James Banks, Marianne Banks.

Moderator Swanson closed the polls at 7:00 p.m. and the Lee Town Meeting was recessed to March 14, 2006 at 7:30 p.m. at the Mast Way School.

Moderator Swanson reconvened the March 2007 meeting on Wednesday March 14, 2007 at 7:30 pm at Mast Way School to act on Articles 3 through 37.

Moderator Swanson noted that he does not adhere strictly to the Rules of Roberts Order; that he believes in a strong adherence to civility, common sense and

courtesy. The legislative body of this community and everyone in it has an opportunity to participate, briefly. It is important to participate, ask questions and expect answers; however, he will not allow open debate amongst people in the audience. If you wish to speak, stand up and be recognized.

Moderator Swanson read the results of the town elections that were held on Tuesday; results are listed below:

ARTICLE 11

Question 1. Are you in favor of the following proposed amendments/changes to the Lee Building Regulations for Article V, of the 2005 Lee Building Regulations as listed below? These amendments/changes, if passed, will change the 2005 Lee Building Regulations to the 2007 Lee Building Regulations. The following amendments/ changes are, in part, updating codes already listed and the addition of NFPA 1, the Uniform Fire Code, 2006 Edition and NFPA 720, carbon monoxide detection in dwellings.

Please note: Deletions are **bold/underlined** and additions/changes are in **bold Italics**.

ARTICLE V

CODES

The following codes are hereby adopted and made part of this ordinance:

1. **International Building Code** 2000 **Replace with:** 2006, **Delete:** First **Edition, published by International Code Council, Inc., with BOCA; Building Officials & Code Administrators International, Inc., ICBO; International Conference of Building Officials and SBCCI; Southern Building Code Congress International, Inc.**

2. **International Residential Code for One and Two Family Dwellings** 2000, **Replace with:** 2006 , **Delete:** First **Edition, published by International Code Council, Inc., with BOCA; Building Officials & Code Administrators International, Inc., ICBO; International Con-**

ference of Building Officials and SBCCI; Southern Building Code Congress International, Inc.;

3. International Plumbing /2000, First, Replace with: 2006 Edition, published by International Code Council, Inc. with BOCA; Building Officials & Code Administrators International, Inc., ICBO; International Conference of Building Officials and SBCCI; Southern Building Code Congress International, Inc.;

4. BOCA National Fire Prevention Code/1993, Ninth Replace with: 2006 Edition, published by Building Officials & Code Administrators International, Inc.;

5. NFPA National Electrical code, 2002, Replace with: 2005 Edition, published by National Fire Protection Association;

6. NFPA 101, Life Safety Code, 2000, Replace with: 2006 Edition, published by National Fire Protection Association. The adoption of this code or where the life safety code is referenced by other codes is hereby amended to exclude section – 24.3.5.1, Extinguishment Requirements of Chapter 24, One and Two Family Dwellings. One and two family dwellings shall comply with the International Residential Code as adopted;

7. New Hampshire Energy Code, as adopted by the Public Utility Commission 1986 and any and all amendments hereto;

8. International Mechanical Code/2000, First, Replace with: 2006 Edition, published by International Code Council, Inc. with BOCA; Building Officials & Code Administrators International, Inc., ICBO; International Conference of Building Officials and SBCCI; Southern Building Code Congress International, Inc.;

9. NFPA 13, Installation of Sprinkler Systems, 2002, Replace with: 2007 Edition, published by

National Fire Protection Association;

10. **NFPA 13D, Installation of Sprinkler Systems in One & Two Family Dwellings & Mobile Homes,** 2002, **Replace with:** 2007 **Edition, published by National Fire Protection Association;**

11. **NFPA 13R, Installation of Sprinkler Systems in Residential Occupancies Up To & Including Four Stories in Height,** 2002, **Replace with:** 2007 **Edition, published by National Fire Protection Association;**

12. NFPA 31, Standard for the Installation of Oil Burning Equipment, **2001**, Replace with: **2006** Edition, published by National Fire Protection Association;

13. NFPA 58, Standard for the Storage & Handling of Liquefied Petroleum Gases, **2001**, Replace with: **2004** Edition, published by National Fire Protection Association;

14. NFPA 72, Standard for the Installation, Maintenance & Use of Protective Signaling Systems, 2002, **Replace with:** NFPA 72, National **Fire Alarm Code, 2007 Edition, published by National Fire Protection Association;**

NFPA 211, Standard for Chimneys, Fireplaces, Vents & Solid Fuel-Burning Appliances, **2000**, Replace with: **2006** Edition, published by National Fire Protection Association.

NFPA 54, National Fuel Gas Code, **2002**, Replace with: **2006** Edition, published by National Fire Protection Association.

NFPA 30A, Automotive and Marine Service Station Code, **2000**, Replace with: **2003** Edition, published by the National Fire Protection Association.

NFPA 1, Uniform Fire Code, 2006 Edition, published by the National Fire Protection Association. Excep-

tion: NFPA 5000, as referenced in the Uniform Fire Code shall not become part of the code. The International Building Code is the adopted state building code as well as locally adopted.

NFPA 720, Standard for the installation of a carbon monoxide (CO) warning equipment in dwelling units, 2005 edition, published by the National Fire Protection Association. Detectors must include a digital readout indicating the Parts Per Million (PPM).

Yes	491	No	118

Question 2. Are you in favor of the following proposed amendments/changes to the Lee Building Regulations for Article VII, of the 2005 Lee Building Regulations as listed below? These amendments/changes, if passed, will change the 2005 Lee Building Regulations to the 2007 Lee Building Regulations.

Please note: Deletions are **bold/underlined** and additions/changes are in **bold Italics**.

Note: The existing paragraph will be labeled A. and the new proposed sections with be labeled B., C. etc.

New Section:

B. Knox Box
All commercial buildings constructed in the commercial zone after July 1, 2007 shall have a surface or recessed rapid entry system, i.e. Knox Box, with key (s) to access the building, fire alarm panel and other spaces as determined by the Fire Chief, Deputy Chief, or their Designee.

C. Fire Alarm System(s)

All commercial buildings constructed or expanded in the commercial zone after July 1, 2007 shall have a fire alarm system installed under NFPA 72, National Fire Alarm Code, 2007 edition. The following shall

also be required, in that, all commercial buildings, regardless of square footage constructed or expanded in the commercial zone shall provide a monitored fire alarm system that is either tied to the Lee Fire Department's Dispatching center or a monitoring center approved by the Fire Chief, Deputy Chief, or their Designee. All fire alarm systems panel boards and/ or cabinets shall be keyed with a "CAT 30" type key. The requirement for the alarm system may be waived by the Fire Chief, Deputy Chief, or their designee after review of the building or expansion of existing buildings.

Yes 555 No 95

Question 3. Are you in favor of the following proposed amendments/changes to the Lee Building Regulations for Article IX, Minimum Building Standards, of the 2005 Lee Building Regulations as listed below? These amendments/changes, if passed, will change the 2005 Lee Building Regulations to the 2007 Lee Building Regulations.
Please note: Deletions are **bold/underlined** and additions/changes are in **bold Italics**.

Note: Re-labeling will follow, if passed, i.e., A thru B and so on.

Delete sections G. Electrical Wiring and H. Plumbing. These are covered in the adopted listed codes.

Add to Article IX, new label K.

K. Oil Burner Inspections prior to the issuance of Occupancy Permits.
An Occupancy Permit shall not be issued until the Fire Chief, Deputy chief, or their Designee has issued an oil burning appliance permit for a new dwelling or commercial building where applicable. (State of New Hampshire Form DSFS-7, Revised 07-95, or subsequent editions).

Yes 52 No 116

OPERATING BUDGET

3. To see if the Town will vote to raise and appropriate the sum of three million twenty-four thousand seven hundred seventy-seven dollars ($3,024,777.00) for general municipal operations for the fiscal year 2007 - 2008. (The Selectmen recommend this appropriation. Majority vote required.)

Executive Select/Town Admin & Sec'y)	$97,506.00
Election & Registration	$15,008.00

Principal Payment	$30,000.00
Interest Payment	$21,600.00
Salary Increase Pool - 2.5% ATB	$31,370.00
OPERATING BUDGET	$3,024,777.00

Article 3 moved by Selectman Ford, seconded by Selectman Wellington.

Selectman Ford indicated that he would give some general comments about the budget and upcoming warrants and what the impact might be on the town tax rate that will be set later this year.

Budget proposed is up from last year approximately 8.2%. However, Selectman Ford indicated that the budget this year includes the Town Clerk/Tax Collector's budget as opposed to last year when the Town Clerk/Tax Collector's budget was a separate warrant article; so adding that back in to last year's budget for comparison would make the net increase about 6%. Last year the increase was 9.5% over the preceding year, so this is a much better number.

The increases include health insurance increase, 14% (approximately $42,000), also the pay into state retirement fund for full time town employees that have State of NH retirement (approximately $20,000). There are usual increases in heating and diesel fuel, and the highway department has increases for sand and gravel and asphalt. Some departments have increases in new equipment and every year there are increases in the tipping fees, which are the costs paid per ton to deposit solid waste at the land fill in Rochester.

Selectman Ford also commented on the upcoming warrant articles to be voted on, in particular the cluster of 4 articles in the end which deal with acquisition of land and conservation easements. The cluster of 4 adds up to the total cost of $1.4 million, however, all of that money will come from outside sources, such as state and federal government, or from trust funds the town already has available for those purposes.

The Advisory Budget Committee reviews all the department budgets and makes recommendations to the Selectmen, who have the final say on the budget presented tonight. Both made a serious effort to constrain the budget. Numerous budget increase requests were cut that add up to about $400,000.

Moderator Swanson clarified that with regard to this article, there is no ability to ask for an elimination of a line item in the budget, but that there may be a motion to amend, either up or down by a certain percentage, and then it would be up to the selectmen to address those changes.

Daniel Bean of Thornton Lane made a motion to amend the budget by a reduction of 8.2%. Seconded by Sandra Chase.

There was no discussion to follow. Moderator Swanson called for a raise of voter cards in favor of adopting the motion to amend. Being that the visual vote was too close to call, a hand count was called for.

Motion to amend defeated. YES 116 NO 138

Tobin Farwell made a motion to amend the budget by a reduction of 5.0%. Seconded by Sandra Chase.

Discussion ensued. Bruce Larson of Allen's Avenue indicated concern of adding personnel. John Collins of Belle Lane questioned when and where the budget meetings are and requested that it be advertised when it happens. Selectman Ford informed that the Advisory Budget Committee goes through all the budgets, and then a public hearing is held, usually in early February, in which the proposed recommendations are aired in the public forum.

Steven Shoal of Sheep Road asked to review the impact of school cost on the taxes versus the town costs. Selectman Wellington offered as a point of interest that voted in yesterday was an increase of $3,094,000 to the school budget which is more than the total operating budget proposed for the town.

Bill Hinsley, a member of the Advisory Budget Committee, suggested that people come to the open budget meetings to give input before presented as a warrant article for the upcoming budget.

Larry Roop of North River Road expressed concern that if the town is to stay as good as it is, need to ensure that the personnel are paid comparable wages and benefits, otherwise, the quality of town employees will not be to the standards needed.

Bambi Miller asked that would the Selectmen consider a volunteer or member of the staff given time to go to school meetings who could report back to them to know what is going on and have more input with the school budget and their process. Selectman Ford indicated that some years ago there used to be an appointed committee for that purpose which no long exists, however, it might be a possibility that the Selectmen consider appointing another committee like that.

Harold Ward asked the question if the townspeople will be blindsided again like they were in December. Selectman Ford responded that last year there were unusual situations, unexpected increases in expenditures, most in the area of abatements that had to be granted to UNH and DeMoulas. DeMoulas had taken the town to court stating that their assessment of property was too high and in the end the lawyers settled and the town had to abate approximately $120,000. Also, the town did not get all the expenditures from the state and federal that had hoped to get. Unusual situations, however, it would be surprising to see this happen again.

Bill Burtis of Owl Lane requested to move the question.

Motion to amend defeated.

Wallace Dennis requested to move the question which would close off any further discussion of Article 3. The motion to move the question was passed by the majority.

ARTICLE 3 ADOPTED.

Jere Beckman made a motion to move Articles 34 and 35 to be presented and discussed at this time. Arthur Bradbury seconded the motion. Arthur

Bradbury moved to amend that Article 35 be presented before Article 34. Sandra Chase seconded the amendment.

Moderator Swanson clarified the motion to amend is to allow discussion of Articles 34 and 35 at this time, and at such time, the town would vote on each independently, and the motion that we are dealing with is that we would vote on Article 35 first and see what happens with that. It is clearly defined if Article 35 was adopted, Article 34 would be null and void and if Article 34 is adopted, Article 35 would be null and void. So whatever action is taken on the first will have a bearing on the what happens on the other Article.

Jere Beckman commented on the Articles being null and void. He went to the Secretary of State's office and had a consultation regarding the language of "null and void" and the office indicated that that verbiage should not even be in the Article.

Motion to amend adopted.

The main motion, as amended, was then voted upon, to bring Article 35 and 34 forward at this time in the legislative session.

Motion as amended was passed.

Moderator Swanson felt that it would be appropriate to have a formal motion to introduce Article 35.

35. Petitioned Warrant Article:
In accordance with RSA 72:89-B "Shall the voters modify the elderly exemptions from the property tax in the Town of Lee, based on assessment for qualified taxpayers, to be as follows: for a person 65 years of age and up to the age of 74 years $174,000; for a person 75 years of age up to 79 years $210,000; for a person 80 years of age and up $270,000".

To qualify the person must have been a resident

of New Hampshire for at least five (5) years, preceding April 1 of the year in which the exemption is claimed, own the real estate individually or jointly, or if such person's spouse owns the real estate, they must have been married for at least five (5) years. In addition, the taxpayer must have a net income of not more than $46,500.00; of if married, a combined net income of not more than $59,400.00 and own net assets not in excess of $222,500.00; excluding the value of the person/s residence. If petitioned warrant article #35 passes warranted article (#34) is null and void.

Henry Brackett moved Article 35. Jere Beckman seconded.

Jere Beckman introduced a motion to amend stating a technical error in that the residency is stated as 5 years and the state changed the law reducing it to 3 years, so Mr. Beckman moved that the 5 year requirement be removed and replace with 3 year requirement. Motion seconded by Wallace Dennis.

Motion to amend adopted.

Selectman Wellington spoke in regards to Article 34. The Selectmen reviewed the elderly exemption and found that what the Town allowed for income and assets was way below other communities in the area and, therefore, proposed changes to the current exemptions that were more middle of the road. He explained that the home is not considered part of assets and further clarified that all elderly home owners would not be eligible because of not qualifying due to net income, assets, etc.

Cynthia Gugiere-Unrein moved to amend Article 35, because we do not know what the long term impacts on this article would be, that this be implemented for 2 years to allow the town long enough time to develop a proposal to look at the longer term impact would be on this and yet provide relief for our taxpayers for a finite period of time. John Puffer

seconded.

Motion to amend defeated.

Robert Hart of Tuttle Road had questions on the actual revenue differences. Selectman Wellington responded that if all 204 residents that are known to be over 65, applied and qualified, currently the town would loose in revenue, based on $23.34 per thousand, if the Selectmen's Article is approved, $434,520 would be reapportioned, and if the petitioned warrant article is approved, $962,074 would be reapportioned based on last year's taxed rate.

Michelle Stevens moved the question. Bill Bouche seconded. The question was voted upon and moved.

ARTICLE 35 ADOPTED AS AMENDED.

34. To see if the town will vote to modify the elderly exemptions from property tax in the Town of Lee, based on assessed value, for qualified taxpayers, to be as follows: for a person 65 years of age up to 74 years, seventy-five thousand dollars ($75,000); for a person 75 years of age to 79 years, one hundred thousand dollars ($100,000); for a person 80 years of age or older one hundred twenty-six thousand dollars ($126,000). To qualify, the person must meet the residency requirement of 3 consecutive years preceding April 1st, own real estate individually or jointly, or if the real estate is owned by such person's spouse, they must have been married for 5 consecutive years, and have a combined net income of less than forty-five thousand dollars ($45,000); and own net assets not in excess of one hundred thousand dollars ($100,000) excluding the value of the person's residence. (The Selectmen recommend this appropriation. Majority vote required) If warrant article #34 passes the petitioned warrant article (#35) is null and void.

Adam Griffith moved to consider Article 34.

Bill Henze seconded the motion.

ARTICLE 34 DEFEATED.

Before presenting Article 4, Allan Dennis, on behalf of the departments, employees, the committees, and volunteers of the community to congratulate Dick Wellington for his years of service.

4. To see if the Town will vote to authorize the Planning Board in accordance to RSA 674:5 "to prepared and amend a recommended program of municipal capital improvement projects projected over a period of at least 6 years". (The Selectmen recommend this appropriation. Majority vote required.)

Article 4 moved by Allan Dennis. Seconded by Selectman Wellington.

Mr. Dennis indicated that in the past town meeting there was a citizen's petition to adopt a capital improvements plan. During that time, the Planning Board was working on the Master Plan which is a critical part of a capital improvements program. The Planning Board has now accomplished the update of the Master Plan.
Mr. Dennis pointed out that this would be a great advantage to the town to be able to plan for the future.

David Cedarholm pointed out that the RSA also allows the Selectmen to appoint a capital improvements committee which shall include at least one member of the Planning Board and may include, but not limit other members of the Planning Board, the Budget Committee, or the town or city governing body to prepare and amend a recommended program of municipal capital improvements projects projected over at least 6 years.

Mr. Cedarholm made a motion to amend Article 4 to allow the Board of Selectmen to appoint a capital improvements program committee. Scott Bugbee seconded.

Selectman Reinhold commented that the Board of Selectmen did consider this option, however, based on the available talent and time available, they decided that the Planning Board would have that assignment. He did not see anything wrong with the proposal, however, we have an effective, very viable successful planning board that has shown a proven performance in their area and they feel that that is the best tool to implement the plan.

Mr. Cedarholm commented that there are a number of individuals in the community including members of the Budget Committee, residents in town that were willing to step forward 2 years ago to participate on a CIP committee who have experience on CIP's and other experience on financial planning. Why not take an advantage of all the financial planners available to the town.

John Collins expressed the hope that the general public input will be sought at large. Also, he asked if athletic fields would be part of this CIP. Alan Dennis indicated that recreation would be included.

Selectman Reinhold addressed Mr. Collins first comment that the source of all the information for the Capital Improvement Plan is the Master Plan. As Mr. Dennis indicated is that we have to go back and look at it a little closer. This will be a very transparent public process and there will be a lot of opportunity for input. This will be designed to stabilize our taxes because we look at it for more than a year at a time.

Kirt Lark asked if anyone has looked at where the money is going to come from to fund the capital improvements. Mr. Dennis indicated that in past years at all the town meetings money is set aside for a fire truck or police cruiser or other items on a yearly basis and tend to plan for those things on in the few months ahead of town meeting to assess our needs as a community as a whole. The benefit with the Capital Improvements Plan is going to give a heads up. We are going to spend this money at some point anyway, but with the CIP we will have a plan

that lays it out years ahead.

David Blenser, Riverside Farm Drive, moved the question. The majority voted to move the question.

The motion to amend "as an alternative the legislative body may authorize the governing body of a municipality to appoint a capital improvements program committee which shall include at least one member of the Planning Board and may include, but not be limited to, other members of the Planning Board, the Budget Committee or the town or city governing body to prepare and amend a recommended program of municipal capital improvement projects projected over a period of at least 6 years."

Motion to amend defeated. YES 84 NO 107

ARTICLE 4 ADOPTED.

5. To see if the Town will vote to raise and appropriate the sum of ten thousand dollars ($10,000) to be deposited with the Trustees of the Trust Fund for the Town Buildings Fund. (The Selectmen recommend this appropriation. Majority vote required.)

Article 5 moved by Selectman Wellington, seconded by Selectman Reinhold.

ARTICLE 5 ADOPTED.

6. To see if the Town will vote to raise and appropriate the sum of ninety-five thousand dollars ($95,000) to be deposited with the Trustees of the Trust Fund for the Highway Bridge Expendable Trust Fund. (The Selectmen recommend this appropriation. Majority vote required.)

Article 6 moved by Selectman Wellington, seconded by Selectman Reinhold.

Selectman Wellington explained that the Town owns 5

bridges. Two will be worked on by the state (Snell Road and Mill Road) this year. The town has to anti up 10% of the cost which will come out of this fund. The big expenditure is the High Road bridge that will need to be replaced. Currently it is safe, and is checked on a regular basis, however, at the time of replacement it could cost upwards of $1 million for that bridge. The town can probably get 85% of it from outside sources, but have to provide the rest and the Town must have before they will commit to doing the work. This request is to maintain the 5 bridges in Lee.

The Town has applied for state aide and been approved for Snell and Mill Road bridge repairs. High Road bridge is on the list, with tentative approval, and expect funding in 2013. The other 2 should be done sometime in 2007.

Randy Stevens indicated that Old Mill and Snell Road bridges have already been approved by the state. The town is paying 20%, approximately $20,000, and the state is kicking in $80,000 and they are doing the work. Regarding the High Road bridge, the state says that it is $775,000 to replace it to cure the flooding problems, that was in 2004. Now they are saying costs have gone up and we do not have a revised estimate to date. The money for Old Mill and Snell Road bridges has already be approved by the Selectmen and money is already in the fund that has already been put away, last year we put $50,000 away and $10,000 three years before that.

This year, knowing that taxes are bad, Mr. Stevens decided to forego the road reconstruction fund because there were not a lot of roads that were in serious shape and tried to combine that with the $50,000 that was put in last year and made a total of $95,000, just so that the town could get on the list. The town will have to have 20% up front, the state pays the other 80%.

Mr. Stevens indicated that he has done a capital improvements plan where he asks for another $95,000 next year, foregoing the road reconstruction funds, and

then after that $60,000 in every year for bridges up until 2020.

Tammy Crosby, Birch Hill Road, requested that Mr. Stevens give an estimated cost of what the repairs were for the flooding that occurred the past year. Mr. Stevens estimated that it was less than $10,000 and we were reimbursed almost in full by FEMA for that.

ARTICLE 6 ADOPTED.

7. To see if the Town will vote to raise and appropriate the sum of thirty thousand dollars ($30,000) to be deposited with the Trustees of the Trust Funds for the purchase of new highway equipment to be deposited in the Highway Expendable Trust Fund. (The Selectmen recommend this appropriation. Majority vote required.)

Article moved by Selectman Wellington, seconded by Selectman Ford.

ARTICLE 7 ADOPTED.

8. To see if the Town will vote to raise and appropriate the sum of ten thousand dollars ($10,000) to be deposited with the Trustees of the Trust Funds for the repair and replacement of fire ponds and cisterns. (The Selectmen recommend this appropriation. Majority vote required.)

Article 8 moved by Joe Lombardo, seconded by Selectman Wellington.

Mr. Lombardo explained that where there is no running water in this town, many years ago with all the developments, it was decided that the way to take care of water suppression was to install fire ponds, and later on to install cement cisterns. Fire ponds grow in, need to be dug our and repaired, hoses with the lines may break away and the cisterns, the segmented style will leak, so we need to repair. The town has taken steps through

the past few years to now require fiberglass cisterns, to eliminate the problem of repairing them. These monies stay in the expendable trust fund so that if there is a fire pond with a cistern that fails, there is water available for a suppression.

ARTICLE 8 ADOPTED.

9. To see if the Town will vote to raise and appropriate the sum of fifty thousand dollars ($50,000) to be deposited with the Trustees of Trust Funds for the purchase of new fire equipment for the Fire Equipment Trust Fund. (The Selectmen recommend this appropriation. Majority vote required.)

Article 9 moved by Joe Lombardo, seconded by Selectman Wellington.

ARTICLE 9 ADOPTED.

10. To see if the Town will vote to incorporate the provisions of RSA 154:5 in order to provide the Selectmen authority to appoint the Fire Chief and Fire Engineers, with the length of appointments decided by the Selectmen.

RSA 154:5 Chief Fireward, Engineer or Fire Chief.

I. The chief fireward, engineer or fire chief in any town, village district, precinct, city or area which has adopted the provisions of this section, shall be appointed for an indefinite period of time or for a definite term, as determined by the legislative body, and the tenure of office shall be technically qualified by training or experience and shall have ability to command firefighters and hold their respect and confidence. Any town may adopt the provisions of paragraphs I and II at any annual meeting by an article in the warrant calling for such action.

II. Subject to such written formal policies as may be adopted by the appointing authority, each chief fireward, engineer, or fire chief of any city or town who is appointed rather than elected, shall have authority to

direct and control all employees of his or her department in their normal course of duty and shall be responsible for the efficient and economical use of all department equipment. Such chief fireward, engineer, or fire chief shall be subject to suspension without pay or dismissal only for cause, and after he or she has been presented with a written specification of the reasons. Upon such suspension or dismissal, the chief fireward, engineer or fire chief shall be entitled to a hearing, on the merits and reasonableness of the action, in superior court in the county in which the municipality is located, provided that the chief fireward, engineer, or fire chief petitions the clerk of the superior court for such a hearing within 10 days of suspension or dismissal. The court shall have the power to affirm, modify or negate such suspension or dismissal, based upon its findings. (The Selectmen recommend this appropriation. Majority vote Required.)

Joseph Lombardo withdrew the Article 10 because this requires the legistrative body to make a determination on the actual length and term of service. Next year it will be presented with a specific term of service.

11. To see if the Town will vote to raise and appropriate ten thousand dollars ($10,000) for the purchase of new equipment to be deposited with the Trustee of the Trust Fund to the Solid Waste Capital Reserve Fund. (The Selectmen recommend this appropriation. Majority vote required.)

Article 11 moved by Selectman Reinhold, seconded by Selectman Wellington.

ARTICLE 11 ADOPTED.

12. To see if the Town will vote to raise and appropriate the sum of five thousand dollars ($5,000) to be deposited with the Trustees of Trust Funds for the Library Capital Reserve Fund. (The Selectmen recommend this appropriation. Majority vote

required.)

Article 12 moved by Carol Evans, seconded by Cathy Swanson.

ARTICLE 12 ADOPTED.

13. To see if the Town will vote to raise and appropriate the sum of twenty thousand eight hundred dollars ($20,800.00) for the Conservation Commission. (The Selectmen recommend this appropriation. Majority vote required.)

Article 13 moved by William Humm, seconded by Tammy McIver.

Mr. Humm indicated that this is a reduction from last year's appropriation, a 10% reduction from what was approved last year. The Conservation Commission does not typically expend its budget, but because the work is so unpredictable of its need, they like to have a little bit of a cushion so that if the need does occur, they may make use of, and if the need does not arise, those funds will revert to the general fund balance and are available for the town to appropriate in a subsequent year.

ARTICLE 13 ADOPTED.

14. To see if the Town will vote to raise and appropriate the sum of twenty thousand thirty-two dollars ($20,032.00) for the McGregor Ambulance Corps (MAC). (The Selectmen recommend this appropriation. Majority vote required.)

Article 14 moved by Selectman Ford, seconded by Selectman Wellington.

ARTICLE 14 ADOPTED.

15. To see if the town will vote to raise and appropriate the sum of twenty-four thousand seven hundred eighty dollars to ($24,780.00) to purchase

a new police cruiser and the changeover of radios and safety equipment. (The Selectmen recommend this appropriation. Majority vote required.)

Article 15 moved by Chester Murch, seconded by Selectman Wellington.

ARTICLE 15 ADOPTED.

16. To see if the Town will vote to raise and appropriate forty thousand dollars ($40,000) for the purpose of obtaining bids for the Assessing of Property Value. (The Selectmen recommend this appropriation. Majority vote required.)

Article 16 was moved by Selectman Wellington, seconded by Selectman Reinhold.

Diane Guimond, Town Administrator, explained that in the operating budget there is the annual cost for assessing. This year the Selectmen pulled it into the warrant articles specifically because the town uses Avitar and are currently in the 4th year of a 5 year contract. The Board of Selectmen listened very carefully to the residents' of Lee complaints in the last 4 months about Avitar and their concerns about the appropriateness of their assessing. With one more year in the contract, there is only one way out of the contract and that is not to appropriate money to Avitar in the operating budget. So what is going to happen is that the contract will be put out to bid to see what comes up from other assessing firms.

Bob Hart questioned that if this goes out to bid, is the town required to accept the lowest bid. Selectman Wellington indicated that all bids that go out from the town specify that we reserve the right to accept or reject any and all, and accept the bid that is in the best interest of the Town of Lee.

Selectman Wellington moved to amend article 16 to read: To see if the Town will vote to obtain bids for

the assessing of property values, and raise and appropriate not to exceed forty thousand dollars ($40,000) for maintenance purposes to fund the awarded bid. Wally Dennis seconded the motion to amend.

Dan Bean questioned what happens if the town does not spend all $40,000, and the Town Administrator explained that any funds not used goes back into the general fund as is the case with any other Articles where the total amount of funds is not spent.

Motion to amend adopted.

James Brown asked if Article 16 is defeated and Article 17 is defeated, then would it mean that there would be no money to reassess the properties and therefore, the taxes would not be increased. Diane Guimond explained that we would really be hurting ourselves if both were defeated because when there were new constructions, there would be no means to assess, and therefore, no way to tax which would become lost revenue.

If the town chooses not to pass Article 17, then that would mean that there would not be a revaluation next year. If we are at 100% now, we may be still be at 100% next year as well, but we might be at 120% and then it would be in the best interest of the residents to do a revaluation because the property values would come down. Or, if it drops to 84% or 80%, then it would be in the best interest of the town to do a revaluation.

Selectman Wellington commented that if we decide not to raise taxes, what you have to bear in mind is that on the Federal level, there is such a thing as states' rights, meaning that the Federal Government only gets the rights that the state does not reserve for itself. Towns only get what rights that the state allows and the state also dictates. If the town does not take it upon itself to do a fair and equitable assessment of the properties and tells the state we are not spending the money, the state will come down and do it for us, and we <u>don't</u> want them

to do that. So it is best to stay with the process we have, even though we hate it; there are worse case scenarios than that.

Adam Griffith, Riverside Farm Drive, responded that he questioned the fiduciary responsibility that was used in making the judgment to take this particular mechanism to seek an out with the contract with Avitar, because the potential was for that scenario to vote down both of these warrant articles and to put us at risk at having the state government do that for us. He then asked for clarification of what Article 16 is saying.

Diane Guimond indicated that in putting out to bid, we do not know what we will be getting back. And, in all honesty, Avitar is extremely well respected within the state. Both Articles need to be passed. Article 17 would have been presented no matter what because the reevaluation is not part of the contract in Article 16.

Suzanne Gaeb, asked what was the responsibility of the Selectmen to look at what Avitar did before the taxes came back to the residents. Selectman Wellington stated that the Selectmen take responsibility for the assessment in this town. The Selectmen are the assessors. Back in the 70's the Selectmen physically did all the assessments. Over the years, the Town elected to hire assessing companies, and we have had 2 or 3 through the years. As stated, Avitar is well respected and they assess 120 towns in the state of New Hampshire.

Ms. Gaeb asked why the town does not hire an individual to do assessments as opposed to a company. Then if the town is not happy with the person, they can get rid of him. Selectman Wellington stated that the town, by itself, with amount of parcels that we have, cannot justify an assessor. But, some towns have gone in together to share an assessor so then there is work enough for such a person to work full time. Ms. Gaeb questioned that they would get more than $40,000 a year? The answer was yes, that it is a very professional job.

David Cedarholm moved to call the questions. The majority voted to move the question.

ARTICLE 16 ADOPTED AS AMENDED.

17. To see if the Town will vote to raise and appropriate the sum of thirty-six thousand four hundred dollars ($36,400) for a complete revaluation and authorize the withdrawal of twenty-one thousand four hundred dollars ($21,400) from the Revaluation Capital Reserve Fund created for that purpose with the balance of $15,000 to come from general taxation. (The Selectmen recommend this appropriation. Majority vote required.)

Article 17 moved by Selectman Wellington. Seconded by Selectman Reinhold.

ARTICLE 17 ADOPTED. YES 106 NO 69

Janice Neill motioned to adjourn to Thursday, March 15th, at the Mast Way School at 7:30 pm. And further, any article addressed and voted on this evening shall not be reconsidered at that time. seconded by Jere Beckman.

Discussion ensued on the pros and cons of adjourning at 11:00 pm.

Daniel Bean made a motion to amend to delete "any article addressed and voted on this evening shall not be reconsidered at that time." Seconded by Mark DeRocher.

Motion to amend rejected.

MOTION TO ADJOURN DEFEATED
YES 83 NO 100

Farm Val Kontratinko, Riverside Drive, made a motion to bring forward Articles 29 through 32 to be presented and discussed at this time. Seconded by

David Thrope.

Moderator Swanson proposed that all articles be discussed together and then allow them to be voted on independently.

MOTION ADOPTED.

Moderator Swanson suggested that the articles will be introduced and then come back with specific motions per article and act and vote on them at that time. He then called for a vote from the legislative body to see if this was an acceptable procedure. Majority voted to accept procedure.

Selectman Wellington commented that it is a proven fact that vacant land is cheaper for the town to deal with than bedrooms. Whereas, residential properties, for every dollar of taxes they generate, the cost is about $1.25 in services. Commercial property and raw land normally runs around $.50 in services for the tax dollar it generates. Approximately 13% of the land in Lee currently has some type of development restrictions on it. The ideal percentage is 25%. The funds for the following articles are for most instances already approved grant money and what we don't get from grant monies, we have in trust already set aside for this purpose.

After Selectman Wellington read Articles 29 through 32, the floor was opened to discussion. Doug Cobb asked the question that if the funds are all available from other places why do they need to be raised? Selectman Wellington answered that the Selectmen have to have authorization from the legislative body to spend the funds the town already has.

Mr. Cobb then asked what the zoning is on these properties, i.e., wetlands, or is it all buildable property? Selectman Wellington commented that a good amount of the lands are good buildable properties.

Ann Wright questioned what the town has in mind for the Kelley property. William Humm commented that the intent at the present time is simply to acquire the Kelley property so that we do not see 15 houses growing there. The further intent, through something they are calling The Old Mill Reserve, which includes the Henry as well as the Kelley and Cheney properties and the Lee 5 Corners reserve, is to, as a unit, protect the aquifer that underlies that land and is the source for the Lee 5 Corners well which currently is producing municipal water supply for UNH and for Durham. Lee has the right to some of that water from the well in the future, should it so choose, to develop it but protecting its integrity is the major emphasis.

Ann Wright asked if there was any limitation to the use of the land. Mr. Humm indicated that there would be some limitations, however, the limitations certainly would provide for passive recreation. The only prohibition NH Department of Environmental Services would place on it would be the prohibition of using herbicides and pesticides.

Ms. Wright then asked if this was going to deplete the Land Acquistion Trust Fund? Mr. Humm stated that the fund currently has a balance of $320,803 and the four articles that are presented tonight would reduce the fund to $80,803. The land use change fund has a current balance of $176,719, and it is proposed to expend $122,000 leaving a balance, assuming all four articles are passed, $54,719.

David Thrope asked if the funds, other than the town's portion, are dead certain, and if not, where do the funds come from? Selectman Wellington commented that there is already a commitment out of DES for $450,000. On the others, some of these won't commit until we commit. In other words, they are not going to give us funds unless we have approved already to spend the funds. In other words, if all funds are not raised, then the town cannot buy the land.

Val Kontratinko commented that even if this money does not increase our taxes this upcoming year, it has come from tax money in the past. He feels that the town has been fiscally irresponsible in they way it has spent, almost unconditionally, on the conservation lands and it is time to ease up on these and not approve them all.

Bill Burtis spoke to the fact, as Randy Stevens pointed out earlier, the more development creates higher water, because with development comes asphalted driveways and new roads which are impermeable surfaces. If the town starts to loose its water sources because of flooding, because of run off, erosion, and sedimentation, then there will be a need for pipes under the streets, water towers, bigger bridges – all big costs to the town. So he felt that this is a bargain if done now.

Laurel Cox clarified that in Article 31 where it says "… conservation easement on approximately 18 acres, more or less", that the total is 18 acres. It happens to be 16 acres on one portion and 2 acres on the other.

Steven Shultz asked if the Commission conducts any kind of estimate of return on investment based on the numbers of vacant land versus bedroom land. Mr. Humm commented that the closest thing the town has done to that is the cost of services study that was prepared one or two years ago, which was alluded to by Selectman Wellington, where it was statistically determined what the cost of services are for a residential lot as opposed to a commercial lot as opposed to a vacant lot.

Mr. Humm indicated that these properties are at the top of the priority list for the Conservation Commission at this time. There are many properties in easements that are working farms.

29. To see if the Town will vote to raise and appropriate the sum of up to six hundred and twenty-five thousand dollars ($625,000) to purchase and acquire in fee simple and up to fifteen thousand dollars ($15,000) for transaction costs, a total of six hun-

dred and forty thousand dollars ($640,000) for the approximately 48 acres land on Old Mill Road, west of the Oyster River, owned by Edward A. and Mary A. Kelley, a portion of Map 5 Lot 8-0, and to authorize the withdrawal of funds from the following sources:
One hundred thousand dollars ($100,000) from the Land Acquisition Fund and sixty thousand dollars ($60,000) from the Land Use Change Fund

Four hundred and eighty thousand dollars ($480,000) or more from the Department of Environmental Services Water Supply Land Grant Program and other outside funding sources, such as, but not limited to, the Coastal Estuarine Land Conservation Program or the Wetland Reserve Program of the Natural Resources Conservation Service. (The Selectmen recommend this appropriation. Majority vote required.)

Article 29 moved by Selectman Wellington. William Humm seconded.

ARTICLE 29 APPROVED.

30. To see if the Town will vote to raise and appropriate the sum of up to two hundred and sixty thousand dollars ($260,000) and up to eight thousand dollars ($8,000) for transaction costs, a total of up to two hundred and sixty eight thousand dollars ($268,000) to purchase and acquire in fee simple approximately 8.78 acres of land on Snell Road, east of the Oyster River, owned by Edward A. and Mary A. Kelley, a portion Map 5 Lot 8-0, and to authorize the withdrawal of funds for the following sources:

Fifty thousand dollars ($50,000) from the Land Acquisition Capital Reserve Fund and seventeen thousand dollars ($17,000) from the Land Use change Tax Fund

Two hundred and one thousand dollars ($201,000) from the Department of Environmental Services

Water Supply Land Grant Program or other outside funding sources, such as, but not limited to the Coastal Estuarine Land conservation Program or the Wetland Reserve Program of the USDFA Natural Resources Conservation Service. (The Selectmen recommend this appropriation. Majority vote required.)

Article 30 moved by Selectman Wellington. William Humm seconded.

ARTICLE 30 ADOPTED.

31. To see if the Town will vote to raise and appropriate the sum of up to one hundred and thirty thousand dollars ($130,000) and up to ten thousand dollars ($10,000) for transaction costs, a total of one hundred and forty thousands dollars ($140,000) to purchase and acquire a conservation easement on approximately 18 acres, more or less, of land on Snell Road, east of the Oyster River, owned by Peter T. and Joan K. Henry, Map 5 Lot 7-0 and a 16 acres portion of Map 5 Lot 8 and to authorize the withdrawal of funds from the following sources:
Twenty thousand dollars ($20,000) from the Land Acquisition Capital Reserve Fund and fifteen thousand dollars ($15,000) from the Land Use Change Tax Fund
One hundred and five thousand dollars ($105,000) from the Department of Environmental Services Water Supply Land Grant Program or other outside funding sources, such as, but not limited to, the Coastal Estuarine Land Conservation Program, the Wetland Reserve Program of the Natural Resources Conservation Service, or the Landowner Incentive Program of the New Hampshire Fish and Game. (The Selectmen recommend this appropriation. Majority vote required.)

Article 31 moved by Selectman Wellington. William Humm seconded.
Laurel Cox moved to amend Article 31 by deleting "16 acres". Alan Eaton seconded the motion.

Motion to amend adopted.

ARTICLE 31 ADOPTED AS AMENDED.

32. To see if the Town will vote to raise and appropriate the sum of up to three hundred and forty-eight thousand five hundred dollars ($348,500) and up to eleven thousand five hundred dollars ($11,500) for transaction costs, a total of three hundred and sixty thousand dollars ($360,000), to purchase and acquire a conservation easement on the approximately 41 acres, more or less, property owned by Louise Tecce, Trustee of the Louise Tecce Revocable Living Trust, Map 9 Lot 6-0, and to authorize the withdrawal of funds from the following sources:

Seventy thousand dollars ($70,000) from the Land Acquisition Capital Reserve Fund and thirty thousand dollars ($30,000) from the Land Use Change Tax Fund

Two hundred and sixty thousand dollars ($260,000) from the Department of Environmental services Water Supply Land Grant Program and other outside funding sources, such as, but not limited to, the Coastal Estuarine Land Conservation Program, the Wetland Reserve Program or the Farm and Ranchland Protection Program of the Natural Resources Conservation Service, or the Landowner Incentive Program of the new Hampshire Fish and Game. (Selectmen recommend this appropriation. Majority vote required.)

Article 32 moved by Selectman Wellington. William Humm seconded.

ARTICLE 32 ADOPTED.

William Cameron, High Road, moved to adjourn until Thursday night, March 15, 2007 at 7:30 pm and further, any article addressed and voted on this evening shall not be reconsidered. Jere Beckman seconded the motion.

Motion to adjourn passed. Moderator Swanson recessed the meeting at 12:05 am.

Moderator Swanson reconvened the 2007 Annual Town Meeting for the Town of Lee, NH at 7:30 pm, March 15, 2007. He reminded everyone who wishes to participate, make sure they have checked in with the Supervisors of the Checklist because the voter card for this night is pink.

18. To see if the Town will vote to raise and appropriate the sum of fifteen thousand dollars ($15,000) to be deposited with the Trustees of the Trust Funds for the Accrued Benefits Trust Fund. (The Selectmen recommend this appropriation. Majority vote required.)

Article 18 moved by Selectman Wellington. Selectman Reinhold seconded.

Administrator Guimond explained that accrued benefits are benefits, i.e., earned, but not used, vacation or sick time, paid out to an employee who leaves town employment. Usually, this article is for two thousand dollars ($2,000) and voted in every year. There are several employees who have worked for the town for numerous years and have maxed out on their vacation time which is anywhere from 100 hours to 336 hours. The total liability to the town should several of the employees decide to leave at the same time, there would not be enough money in trust fund to pay out all the time owed. At this time, should all 22 full time employees leave, the total liability would be approximately $47,000 for vacation owed, and sick time would be a $19,000 liability.

ARTICLE 18 ADOPTED.

19. To see if the Town will vote to raise and appropriate the sum of thirty-five thousand dollars ($35,000) to be deposited with the Trustees of the Trust Funds for the Recreation Trust Fund. (The Selectmen recommend this appropriation. Majority

vote required.)

Article 19 moved by Selectman Reinhold. Seconded by Selectman Wellington.

Selectman Reinhold explained that currently there is $44,889.87 in the trust fund. The additional funds of $35,000 would be put in there, and obviously the money cannot be expended without the legislative body's approval. The intent, as an example, we recently purchased the Granger pit which will be known as The Little River Park and should we want to work towards developing that for recreational facilities, the funds will be needed to do that. The intent of the Trust Fund is to build up until such time the Recreation Commission brings forward to this body to consider additional development.

Dawn Genes, Chairman of the Recreation Commission, commented that the Commission has been discussing many plans for the Little River Park. One of the plans is to have a Babe Ruth size baseball field, a parking area, a sign for the park. There are visions for a pavilion that could be used for gatherings, possibly the Farmers' Market using the pavilion, a playground in place, basketball court, and shuffle board. There are 35 acres available, the area down by the river would be maintained naturally, and pretty much be left untouched with the exception of a few trails. She indicated that the Commission would like to roll out a 5 year plan, timing it with other things that have to happen in town.

Ann Wright from the Recreation Commission commented that this park will be something for everyone, not only ball fields, but a place for gatherings.

Nick Mationi asked who would be responsible for grooming the fields. Ms. Genes commented that there is not a plan for that yet.

ARTICLE 19 ADOPTED.

20. To see if the Town will vote to raise and appropriate the sum of four thousand five hundred twenty-four dollars and forty-three cents ($4,524.43) for Strafford Regional Planning Commission. (The Selectmen recommend this appropriation. Majority vote required.)

Article 20 moved by Allan Dennis. Seconded by Selectman Wellington

Mr. Dennis commented that this is something the town has been doing every for the past 20 years or so. The town uses the Commission's expertise on different matters, mapping, laying out tax maps and things of that nature. The Commission does not counsel the town on how the town should be developed, but that they are the go to folks to help gather the information, they are an information bank.

ARTICLE 20 ADOPTED.

21. To see if the Town will vote to raise and appropriate the sum of two thousand four hundred dollars ($2,400) for the Town of Lee Heritage Commission. (The Selectmen recommend this appropriation. Majority vote required.)

Article 21 moved by Patricia Jenkins. Seconded by Selectman Wellington.

Ms. Jenkins commented that these funds would help preserve old records by purchasing fire proof safes.

ARTICLE 21 ADOPTED

22. To see if the Town will vote to raise and appropriate the sum of two thousand dollars ($2,000) for the Town of Lee Agricultural Committee. (The Selectmen recommend this appropriation. Majority vote required.)

Article 22 moved by Eric Sawtelle. Seconded by

Selectman Wellington.

Mr. Sawtelle commented that the town now has a standing Agriculture Committee which was appointed by the Selectmen last year stemming from a request from the Planning Board 2 years ago to look and rehash the agricultural section of the master plan. The group established did so and in order to carry out the goals and objectives of the Master Plan which were adopted, the Selectmen felt the group that worked on the revisions for the Master Plan would be best equipped to carry out the goals and objectives set forth. The Committee has applied for some grants to hopefully cover these funds for their budget.

Jere Beckman moved to amend Article 22 to read to increase the funds six thousand dollars ($6,000). Selectman Reinhold seconded.

Mr. Beckman stated that agriculture has been dwindling in the town and he feels that for the Committee to really do their job they really need the money to do it.

David Cedarholm felt that there are numerous committees in the town that do not even have budgets, so $2,000 would be sufficient as that is what the Committee has budgeted for. Where would the other $4,000 be used.

Mr. Sawtelle commented that the Committee plans on a one time mailing, due to 911 and emergency management procedures, it is suggested to create an inventory on what there is in town for agriculture and agricultural resources in the event of a major shut down in the infrastructure in this country.

Selectman Reinhold commented that appropriate signage with the ability to move people from Route 125 and 155 into the community to find all the local farms is a relatively expensive project and have been unable to work with because of the funding. Certainly if the funding were available, there could be appropriate signage that meets both zoning and ordinances of the town on various roads which would direct people to these farms. Finding the farms and making the farms viable and having them be able to sell their products is a critical piece of their success.

Motion to amend adopted Yes 51 No 47

ARTICLE 22 ADOPTED AS AMENDED.

23. To see if the Town will vote to appropriate the sum of forty-two thousand one hundred dollars ($42,100) to allow the Information Technology Committee to purchase computer equipment and software for town office. (The Selectmen recommend this appropriation. Majority vote required.)

Article 23 moved by Selectman Reinhold. Selectman Wellington seconded.

Selectman Reinhold commented that this is the first year the Information Technology Committee was established. All the computer technology information from all of the departments was gathered and consolidated by the IT Committee. The intent was, and we were fortunate enough, to find volunteers extremely talented and computer oriented to help make decisions on when, how and what kind of technology should be purchased for the town. Over the past year, they have diligently been working and proposing basic replacement for computers, working up longevity schedules, and reviewing all of the town's technology, coming up with an amazing matrix of supposed life spans. After completing all that, they have come up with a budget that basically represents the maintenance of all of the information technologies.

The breakdown of the $42,100:

Computer Hardware	**23,450**
Computer Software	**5,000**
Computer Services	**7,150**
Website Service	**8,980**

Selectman Reinhold indicated that there was a mathematical error in the breakdown versus the Article. The amount listed in the Article stands, the breakdown will be adjusted.

The website services have been effective but relatively known as not the most dynamic or well maintained site. Over the next year, if this particular warrant article passes, we intend to move from the 60's to the 21st century, bring our website up to date, have it maintained correctly so a lot of the information, including information from the Town Meeting and Annual Report will be dumped into the website so that it may be readily available to view.

What is not included in this budget is Channel 13; it was dropped from the budget.

Jay Hilyard moved to amend Article 23 to read "to see if the Town will vote to appropriate the sum of forty two thousand one hundred dollars ($42,100) to fund the Information Technology Advisory Committee recommendations to equip, supply and operate a website, broadcast email list server, and cable access channel, as well as purchase computer equipment and software for the town." Dave Cedarholm seconded the motion to amend.

Mr. Hilyard commented that one of the things the Committee heard a lot last year was communication. Everyone would like a little more about what

is going on in the town and the Committee would like to really start using the website, have an email list server and work towards at least having a bulletin board system up on Channel 13 to help bring some of this information to you better.

Paul Gasowski stated that last year this governing body appropriated $20,000 to purchase computer equipment and $15,000 to purchase cable access equipment. The IT Committee was formed subsequent to those particular votes and it has taken a better part of a year to study and prepare to spec out equipment, including cable TV equipment. The fact that peg access got lost in the budget process was probably an oversight because if there is not an appropriation out of this article, they cannot begin to operate a TV station. They have equipment ready to purchase, but there is no personnel line to run it.

He also indicated that Comcast sent a letter to the town asking what the intent was in regards to channel 13. The town negotiated with Comcast up the channel for the town and ran the wiring, now are waiting to see if the town is going to use it. His assumption is if the town does not use it, then Coabout 16 months ago and part of the negotiations was opening up a public access channel. Comcast opened mcast has every right to use it themselves. And getting it back would be very difficult.

Selectman Reinhold stated that the Board of Selectmen took out the $13,500 required to bring on the peg access. As Selectman Ford indicated, they took over $400,000 out of the budget. It was not a clear indication from the governing body as to whether this was something appropriate for this year. He feels that it is important to find

money to fund this, but it is the governing body's decision.

Jay Hilyard commented that after the $13,500 was deleted from their budget, the Committee went back and reapportioned the funds in this Article to be able to still work on peg access as well as all the other items in the budget. The committee will work within their budget.

In regards to the $8,000 for the website, there is a spike of $1,000 to do the revamp of the website and the annual cost will be approximately $6,000 to $7,000 to have a weekly update, and at that, have established with a contractor to work at $15.00 per hour to work on the website.

He stated that an initial document that will be a content publishing procedure so that various committees and departments in town can publish content to the website or link off to the separate websites like for the library and fire department. In regards to content management, there are no firm decisions on it.

Motion to amend adopted.

ARTICLE 23 ADOPTED,AS AMENDED

24. To see if the Town will vote to raise and appropriate up to thirty thousand dollars ($30,000) to be used to study land use options for future town facilities, including town hall, library, historic and recreational facilities, as well as office and meeting space. The lands to be studied include a focus on town owned properties within a half mile radius of town hall. The data to be collected and analyzed includes soil types, septic and water options, drainage, traffic patterns, parking patterns, parking options, utilities needs, planning and space needs.
Fifteen thousand from General Taxation
Fifteen thousand from Town Building Expendable Trust Fund

(The Selectmen recommend this appropriation. Majority vote required.)

Article 24 moved by Allan Dennis. Seconded by Selectman Wellington.

Mr. Dennis commented that over the past few months, there has been a group of various people from recreation, library, his office, Selectmen, and even a few members of the church who are taking a look at the future and how the town will proceed in the future. The Safety Complex was built and Transfer Station. This fits in with the CIP. There was a public information session on March 1st at which approximately 20 people attended.

There have been no decisions on where, and when, the town will build a new library, a new town hall, do anything with the buildings we have. This is a fact finding mission to gather all the information needed so that the town can proceed responsibly with the next growth part of the community which is the library, town hall, recreation, and other facilities.

A slide presentation was shown. Mr. Dennis stated according to the Office of Energy and Planning, the current population of Lee is 4,400. All indications are that we will continue to grow. By 2030, again according to the Office of Energy and Planning, there will be a 24% increase in the population.

So what will Lee do? Currently, there are five buildings, the town hall, library, historic building, old police station, and the garage the police used for evidence and radar trailer, on just a little bit over an acre. The only way that information of how much land there was actually there was from the deed, there is no survey on this property. There are three septic systems which don't meet code. On the left side of the town hall is an easement for a septic system, which is 20 feet wide (from Rt. 155 to the back of the building 75 feet deep). This, and the other two septic systems, is on dry well type system (no leach field), they are pumped on a fairly

regular basis.

In the Town Hall there are issues of storage, data collection, working space, handicap accessibility, and building structure. In regards to the library, code requires that libraries be designed to 150 lbs per square foot, of loading, and this library does not come close to that. There have been various additions made. Overall, the building is not adequate for usage, handicap accessibility, storage, space, etc. Parking is shared for all the buildings.

The Annex is used by the Conservation Commission, Recreation Committee, Agriculture Committee, Public Assistance, custodial care storage, and the telephone system is stored in there.

The Town is trying to put together information to fill in the gaps, to do soils work, to hire somebody who can help to plan, to do test pitting, and map out the wetlands. Then come back, as part of the Capital Improvements Plan, saying it is time to build the library, it's time to do recreation, it's time to do something with the town hall.

In no way is anyone advocating tearing anything down that the town already has. Also, the town needs to look at what there is already existing.

Selectman Reinhold commented that research needs to start now to invest in the future so that the town does not get in the same situation of building a Safety Center and a Recycling Center at the same time because an agreement could not come together. This time we are trying to get ahead of the program, i.e., figure it all out and get the information ready.

Selectman Reinhold stated that one of the goals for the Selectmen this coming year is to fully implement a CIP and bring it before the town next year at this time.

Cathy Swanson urged that this article pass. She indi-

cated that she has seen multiple groups come together pulling together, talking to each other, to try to come up with a way to work with what the town has and create something that is in the best interest of the citizens of Lee. The plan is not to build all new "stuff". In the researches that have been done to date, the town's people have felt very strongly about preserving the quality of the town of Lee which does not mean leveling the existing buildings. For once the town is not going into long range planning piecemeal. This is a positive direction the town is going.

Selectman Reinhold moved to amend Article 24 to read ...an amount not to exceed (replacing "up to") and delete the word "expendable" in the bullet item "Fifteen Thousand from Town Building Expendable trust fund". Selectman Wellington seconded the motion to amend.
The Article to read, as amended:

24. To see if the Town will vote to raise and appropriate not to exceed thirty thousand dollars ($30,000) to be used to study land use options for future town facilities, including town hall, library, historic and recreational facilities, as well as office and meeting space. The lands to be studied include a focus on town owned properties within a half mile radius of town hall. The data to be collected and analyzed includes soil types, septic and water options, drainage, traffic patterns, parking patterns, parking options, utilities needs, planning and space needs.
Fifteen thousand from General Taxation
Fifteen thousand from Town Building Trust Fund

The motion to amend adopted.

ARTICLE 24 ADOPTED AS AMENDED.

25. To see if the Town will vote to raise and appropriate twenty-five thousand dollars ($25,000) for the purpose of finishing second floor of the Safety

Complex. This money will be deposit into the Fire Building Trust. (The Selectmen recommend this appropriation. Majority vote required.)

Article 25 moved by Selectman Reinhold. Seconded by Selectman Ford.

Selectman Reinhold commented that when the Safety Complex was built, the second floor was not completed. The Annex was built with the future in mind, and as the town grows, there will be a need for expansion to the second floor to accommodate a full time fire department and ambulance service on our own site. Some indications show that these needs may be five years away, could be earlier, could be a lot later. This article is intended to start a fund that will work towards the completion of the Safety Complex. And hopefully, with the money put aside, the final sting when it comes to finish the building, there will be enough money to have it completed.

Ann Ury asked what will the second floor be used for. Fire Chief Lombardo commented that it would be used for partial living space, meeting room, and training room. Also, Selectman Reinhold is trying to get the building set up as a qualified shelter.

Fire Chief Lombardo moved to amend the Article to read "Expendable" Trust. Selectman Wellington seconded.

Amended article to read:

25. To see if the Town will vote to raise and appropriate twenty-five thousand dollars ($25,000) for the purpose of finishing second floor of the Safety Complex. This money will be deposit into the Fire Building Expendable Trust Fund.

Ann Ury asked that as an expendable fund, would the Selectmen be in charge of spending the funds? Answer, yes.

ARTICLE 25 ADOPTED AS AMENDED.

26. To see if the Town will vote to place a conservation easement on the right of way of the gravel portions of Birch Hill Road, DeMerritt Avenue, High Road and Sheep Road to ensure that the road surfaces remain unpaved, the historic stonewalls remain and that the roads remain at their present width. (The Selectmen recommend this appropriation. Majority vote required.)

Article 25 moved by Patricia Jenkins. Seconded by Selectman Wellington.

Ms. Jenkins commented that these are the last four gravel roads left in town. As an interest in preserving heritage, these are part of the road system that was here when Lee started. So they were here before 1766.

Jennifer Stafford moved to amend Article 26 to delete Sheep Road. Rebecca Redhouse seconded.

Amended Article 26 to read:

26. To see if the Town will vote to place a conservation easement on the right of way of the gravel portions of Birch Hill Road, DeMerritt Avenue, and High Road to ensure that the road surfaces remain unpaved, the historic stonewalls remain and that the roads remain at their present width.

Ms. Stafford indicated that the residents of Sheep road want to leave the option open to be able to pave the road.

Jim Griswold spoke that this is a worthwhile article and presented a slide show of the four roads mentioned in the article.

Selectman Wellington commented that all four of the roads are not dead ends, all go somewhere. If these

roads are paved, it will increase the traffic and speed on each of them.

A letter was sent on February 26, 2007 from the Heritage Commission to all the residents on these roads listed in this Article to inform them of this proposal. And, if there was any input regarding this article, to contact the Heritage Commission.

Randy Stevens, Road Agent, expressed his concern on the width of these roads, and drainage issues, as well as future availability of gravel.

Richard Levitts questioned how the town could place an easement on stonewalls not belonging to the town. Pat Jenkins stated that there would have to research who owns the walls and see if, owned by a resident, the owner would be willing to allow the easement.

Eric Sawtelle commented that RSA 674.51 states that it is illegal to move or remove any boundary wall in the State of New Hampshire. So the walls are protected.

Sarah Cox of the Heritage Commission stated that the intent of the Commission was not to undermine any of the residents on these road. The letter sent was to address concerns either before this meeting or at this meeting.

Jay Hilyard moved to move the discussion on the motion to amend.

Motion to amend, to delete Sheep Road, adopted.

Dave Cedarholm made a motion to table Article 26 to next year. Margaret Redhouse seconded.
Moderator Swanson stated that he did not have a clear comfort level with the fact that trying to table this to next year's meeting. He is not sure it is procedurally possible.

Dave Cedarholm withdrew his motion to table to next

year. Margaret Redhouse withdrew her second. Pat Jenkins withdrew, without prejudice, the motion to present Article 26. Selectman Wellington withdrew his second.

27. To see if the Town will vote to raise and appropriate fifteen thousand dollars ($15,000), if necessary, for selective mosquito control, such control to be governed by concern for the protection of wildlife habitat and the safety and health of property owners and residents. (Majority vote required.)

Article 27 moved by Selectman Ford. Seconded by Selectman Reinhold.

Selectman Ford indicated that at last year's town meeting the exact same warrant article was presented and did generate considerable discussion and in the end it was voted down. The reason the article is being presented again, somewhat reluctantly, is that the selectmen received a memo from the state in which stated that all of Rockingham County and parts of Strafford County were declared public health threats for triple e in 2006. These two counties are still considered at risk and will be eligible to receive up to 25% reimbursement for 2007 mosquito spraying.

Last year this article was voted down because of the concern that the spraying not only kills mosquitoes, but other good insects, such as bees, and birds.

Alan Eaton indicated that he felt that at this time, the article should be voted down and continue to monitor.

Kurt Stollar expressed his concern of the consequences if we do not spray. Adam Griffith encouraged the governing to vote to adopt Article 25.

Bill Burtis moved to amend Article 27 to read:

To raise and appropriate $1,500 for public education about arthropod-carried diseases in order to protect

the health and safety of the residents of Lee. Seconded by Amos Townsend.

Motion to amend approved.

ARTICLE 27 DEFEATED AS AMENDED.
YES 47 NO 54

Selectman Wellington introduced the town's new selectman, Jim Griswold.

28. To see if the Town will vote to raise and appropriate up to seventy-five thousand dollars ($75,000) to be added to the Land Acquisition Capital Reserve Fund and authorize the transfer of the June 30, 2007 fund balance in that amount for this purpose. (The Selectmen recommend this appropriation. Majority vote required.)

Article 28 moved by Bill Humm. Seconded by Scott Bugbee.

Mr. Humm indicated that last year a survey went out to the residents in regards to updating the Master Plan. One set of questions in the survey dealt with residents' feelings, interests, desires with respect to maintaining and protecting open space in the town of Lee. 87% of the respondents agreed with protecting remaining uplands from development. Of those agreeing, 42% said the target should be 25% of the remaining uplands to be protected. 51% said higher than 25%. 7% said lower than 25%.

Currently, Lee has uplands of 12, 926 acres in total. Of those, approximately 2,200 are protected through conservation easements or outright ownership by the town and owned for the purpose of protection. That represents about 17% of the total uplands of the town. After authorized expenditures of the Articles voted on and accepted, the balance in this fund will be $80, 803. With this approved Article, the balance would be $155,803.

ARTICLE 28 ADOPTED.

33. To see if the Town will vote to raise and appropriate the sum of nine thousand one hundred eighty-one dollars ($9,181) for the agencies listed below:

Strafford County Community Action	$1,250
Sexual Assault Support Services	$1,775
Lamprey Health Center	$2,500
My Friend's Place	$500
AIDS Response Seacoast	$700
American Red Cross	$500
Girls on the Run	$500
Strafford County Homemakers	$956
Homeless Center for Strafford County	$500
Total	$9,181

(The Selectmen recommend this appropriation.)

Article moved by Scott Bugbee. Seconded by Selectman Wellington.

ARTICLE 33 ADOPTED.

36. Petitioned Warrant Article:
New Hampshire Climate Change Resolution
To see if the town will go on record in support of effective actions by the President and the Congress to address the issue of climate change, which is increasingly harmful to the environment and economy of New Hampshire and to the future well being of the people of Lee.

These actions include:
Establishment of a national program requiring reductions of U.S. greenhouse gas emissions while protecting the U.S. economy.
2. Creation of a major national research initiative to foster rapid development of sustainable energy technologies, thereby stimulating new jobs and investment.
In addition, the Town of Lee encourages New Hampshire citizens to work for emissions reductions within their communities, and we ask our Selectmen to con-

sider the appointment of a voluntary energy committee to recommend local steps to save energy and reduce emission.

The record of the vote on this article shall be transmitted to the New Hampshire Congressional Delegations, to the President of the United States and to declared candidates for those offices.

Article 36 moved by Sid White. Seconded by Selectman Ford.

ARTICLE 36 ADOPTED.

37. To transact any other business which may legally come before this meeting.

Dave Meeker moved to adjorn. Seconded by Allan Dennis.

Motion adopted. Moderator Swanson called the meeting closed at 10:55 pm.

Respectfully submitted,

Linda R. Reinhold
Town Clerk/Tax Collector

TOWN WARRANT

TOWN OF LEE
COUNTY OF STRAFFORD
STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Lee, County of Strafford, State of New Hampshire, qualified to vote in Town affairs:

YOU ARE HEREBY NOTIFIED TO MEET AT THE LEE PUBLIC SAFETY COMPLEX ON TUESDAY, THE ELEVENTH OF MARCH, 2008, TO ACT ON THE FOLLOWING SUBJECTS:

(Polls will open from 8:00 A.M. to 7:00 P.M.)

1. To choose all necessary Town Officers for the ensuing year.

2. To see if the Town will vote to adopt the changes proposed to the Lee Zoning Ordinance and/or Building Codes:

Article II

Are you in favor of the adoption of Article II, as proposed by the Lee Planning Board to the 2007 Lee Building Regulations as follows:

Items <u>underlined</u> and **bold** are to be deleted and the new text is in *Italics*.

Existing
Article VII, Section C

All commercial buildings constructed or expanded in the commercial zone after July 1, 2007 shall have a fire alarm system installed under NFPA 72, National Fire Alarm Code, 2007 edition. The following shall also be required, in that, all commercial buildings, regardless of square footage constructed or expanded in the commercial zone shall provide a monitored fire alarm system that is either tied to the Lee Fire Department's dispatching center or a monitoring center approved by the Fire Chief, Deputy Chief, or their Designee. <u>**All fire alarm systems panel boards cabinets shall be keyed with a "CAT 30" type key.**</u> The requirement for the alarm system may be waived by the Fire Chief, Deputy Chief, or their designee after review of the building or expansion of existing buildings

Proposed
Fire Alarm Systems (s)

All commercial buildings constructed or expanded in the commercial zone after July 1, 2007 shall have a fire alarm system installed under NFPA 72, National Fire Alarm Code, 2007 edition. The following shall also be required, in that, all commercial buildings, regardless of square footage constructed or expanded in the commercial zone shall provide a monitored fire alarm system that is either tied to the Lee Fire Department's Dispatching center or a monitoring center approved by the Fire Chief, Deputy Chief, or their Designee. *All fire alarm systems panel boards cabinets and or devices shall be keyed with a "CAT 30" type key.* The requirement for the alarm system may be waived by the Fire Chief, Deputy Chief, or their designee after review of the building or expansion of existing buildings

YES NO

Article III

Are you in favor of the adoption of Article III, as proposed by a citizens petition, of at least 25 registered voters to adopt the following:

The proposed citizens petition for a proposed zoning change/amendment is in addition to and of the existing commercial zone as described in Article IV: Zones, of the 2006 Lee Zoning Ordinance and this petition also includes an amendment to Article VI, Commercial Zone (Zone C) of the 2006 Lee Zoning Ordinance, section C-3; setback to delete and replace the minimum setback of One Hundred Twenty-Five (125) from the highway right-of-way to a distance of Fifty Feet (50) from the highway right-of-way for the entire commercial zone (existing and expanded).
This proposed commercial zone as stated above shall start at the Steppingstones Road intersection running south along Route 125 (also known as Calef Highway) Seven Hundred Fifty Feet (750) on the west side of said highway and one thousand feet (1000) east side of said highway ending at the North side right-of-way of the intersection of Route 152 (also known as Wadleigh Falls Road) and Route 125 (also known as Calef Highway). Said one thousand foot distance shall be measured from the highway right – of-way.
(The Lee Planning Board does not support this petition.)

YES NO

Articles 3 through 32 will be acted upon
at the Mast Way Elementary School on
Wednesday, March 12, 2008 at 7:30 P.M.

OPERATING BUDGET

My Friend's Place	$ 500.00
AIDS Response Seacoast	$ 700.00
American Red Cross	$ 500.00
Girls on the Run	$ 500.00
Strafford County Homemakers	$ 921.00
Homeless Center for Strafford County	$ 500.00
Total	$ 9,146.00

(The Selectmen recommend this appropriation. Majority vote required.)

28. To see if the Town will vote to raise and appropriate the sum of up to four hundred thousand dollars ($400,000) and up to sixteen thousand dollars ($16,000) for transaction costs to purchase and acquire a conservation easement on approximately 60 acres, more or less, of land at 183 Wednesday Hill Road owned by Clyde Fogg, Map 15 Lot 2-0, and to authorize the withdrawal of funds from the following sources:

- $100,000 from the Land Acquisition Capital Reserve Fund;
- $12,000 from the Land Use Change Tax Fund;
- $304,000 from the Department of Environmental Services Water Supply Land Grant Program, the Landowner Incentive Program of the New Hampshire

Department of Fish and Game or other outside funding sources, such as, but not limited to, the Coastal Estuarine Land Conservation Program and the Wetland Reserve Program of the Natural Resources Conservation Service.
(The Selectmen recommend this appropriation. Majority vote required.)

29. To see if the Town will vote to establish a Lee Agriculture Commission, pursuant to RSA 674:44-e through g; RSA 673:1,II; RSA 673:4-b; RSA 673:7 II, 10, 14, I, 18, 20 and 21, along with the two other proposed actions stated below:

1) The membership section 673:4-b I, prescribed manner of appointment: It is proposed that the governing body of the town (Board of Selectmen) shall appoint seven (7) regular members and five (5) alternate members to the Lee Agriculture Commission. Whenever possible, the majority of both regular and alternate members shall be or shall have been actively engaged in agricultural pursuits. Upon passage of the warrant article, current regular and alternate members of the Lee Agriculture Committee shall automatically be nominated to the new Lee Agriculture Commission to serve the remainder of their existing terms. Subsequently, all new members shall be selected from a list of nominees provided to the governing body by the existing Lee Agriculture Commission.

2) Any outstanding balance remaining in the Farmer's Market Account currently being managed by the Lee Agriculture Committee shall be automatically transferred to the newly formed Lee Agriculture Commission as authorized and pursuant to RSA 674-44g. (The Selectmen recommend this warrant article. Majority vote required.)

30. To see if the Town will vote to accept the following Ordinance:

Acceptance of Credit Cards

The Town Clerk- Tax Collector and/or any other Municipal Official or department, as authorized by the Board of Selectmen, will be allowed to accept credit card payments pursuant to RSA 80:52-c for the collection of local taxes, charges generated by the sale of utility services or other fees by use of a credit card. The Town will add to the amount due, in addition to any interest and penalties payable, a service charge for the acceptance of the card. The amount of the service charge shall be disclosed at the time of the billing. The Board of Selectmen may adopt rules and or regulations regarding the collection procedures.

31. **Petitioned Warrant Article:**

Are you in favor of the following changes to the Racetrack Ordinance?

Changes are underlined. Deletions are in **(bold parentheses).**

Section 2: Motor vehicle racetrack may be open and may operate from April 1 through October 31 each year for automobile, go-cart and motorcycle racing only. Vehicular racing shall be limited in total operating hours per race date, including warm-up, to eight

(8) hours inclusive. At no time shall said operating and warm-up time begin before 12:00 PM. No racing may be started after 11:30 PM and all racing is to stop by 12:00 midnight. Owners and/or operators may conduct Auto/Truck/Heavy Equipment Auctions, Driving School, Go-Karting, Recreational Vehicles and Boat Shows during non-race events. These shall not be considered as an Event or subject to the conditions set forth in Section 4 or Section 17.

32. To transact any other business which may legally come before this meeting.

GIVEN UNDER OUR HANDS AND SEAL THIS
TWENTY SECOND DAY OF FEBRUARY
TWO THOUSAND AND EIGHT

BOARD OF SELECTMEN FOR THE TOWN OF LEE

CODE OFFICIALS ANNUAL REPORT

Differently than seen in previous years, residential growth has slowed down in town, it still exists, but it has slowed down. However, homeowners have been very busy doing renovations/remodeling/ construction of outbuildings and additions to their existing homes.

In the commercial zone near and around the traffic circle, Wentworth Douglas Hospital is in the approval process and hopes to start construction in January of 2008. There is a commercial site with Zoning Board approvals still available on Concord Road (Rt. 4.) Various groups have been interested in this site but nothing has come forward for the final approval process as of yet.

A total of eighty seven (87) building permits were issued for the fiscal year 2006- 2007, with an estimated cost of $7,676,088. A breakdown of the types of permits is as follows:

Category	Permits
Single Family Dwellings	9
Additions	12
Outbuildings	21
Garages	5
Remodeling/all others	40

During the 2006-2007 fiscal year, action was taken by the Zoning Board of Adjustment on eight (8) applications resulting in thirteen (13) actions.

The Zoning Board of Adjustment reviewed and acted on four (4) Special Exception requests, and nine (9) Variance requests

During the fiscal year 2006- 2007 the Planning Board reviewed and denied one (1) subdivision applications; reviewed and approved two (2) lot line adjustment applications; two (2) commercial site plans and renewed two (2) gravel pit permits.

All applications are on file at the Office of Planning & Zoning and are available for review by the public upon request.

On behalf of the Zoning Board of Adjustment and the Planning Board I would like to extend our thanks to all the Boards and Department heads who generously provide recommendations and comments on these applications.

Respectfully Submitted,

Allan Dennis
Planning/Zoning/Health/Code Enforcement Official

Fire & Rescue Department

For the first time in more than 50 years of service to the town, members of the Lee Fire & Rescue Department responded to more than 500 calls for assistance. That's a significant increase in call volume when compared to calendar year 2006. It continues to reflect an increasing trend not only in the number of incidents, but their complexity. In 2006 department personnel responded to 411 calls for assistance. The total of 506 responses in 2007 represents a 23% increase.

Once again the department was challenged with responding to significant flooding during the spring. In cooperation with the police department firefighters assisted homeowners with evacuation and provided assistance to others in pumping flooded basements. The department's members also responded to swift water rescue incidents that occurred when the Lamprey River crested its banks in the vicinity of Wadleigh Falls. This was the second year in a row that department personnel worked around the clock to help their neighbor.

Along with their response to medical and fire emergencies, the department's full time Firefighter/Emergency Medical Technicians embarked upon an aggressive fire safety education program that reached over 800 children through a combination of classroom lectures and demonstrations to outreach programs at the town's many daycare facilities. Additionally, members of the department hosted a number of educational programs for children at the Public Safety Complex. Through these efforts the department is close to meeting its goal of establishing an ongoing fire safety education program intended to reach all of the town's children.

The department's administration was instrumental in establishing a number of changes to the Town's Building Regulations. Most significant of these new rules is a requirement to ensure all new homes built within the town are equipped with carbon monoxide detectors. As more

homeowners rely upon alternative methods such as wood burning appliances to heat their home, or generators to supply power during outages, additional monitoring is considered crucial to life safety.

During its annual meeting Fire Chief Joseph Lombardo announced he did not intend to seek another term. Chief Lombardo joined the department in 1987 and served as its Chief since 2001 leading it through a number of significant changes during his tenure. In addition to obtaining more than substantial grant money from federal and state entities, Chief Lombardo was responsible for establishing the town's first full time fire/emergency medical services personnel. In close cooperation with Police Chief Chet Murch, Chief Lombardo was part of the planning and implementation process for the town's Public Safety Complex. Chief Lombardo turned over the reins of the department on January 1, 2008 to Michael Blake. The new chief brings more than 33 years of fire service to the town ranging from that of a call firefighter to a full time Assistant Chief.

POLICE DEPARTMENT
2006-2007 ANNUAL REPORT

As towns to the north and south continue to expand their commercial growth along with an increasing residential growth around the area, the police department has seen an increase in vehicle traffic on Route 125 and Route 4. With this increase in traffic comes an increase in calls for service, motor vehicle crashes as well as an increase in motor vehicle traffic on town roadways as people try and find alternate routes around traffic congestion on Route 125 and Route 4.

The State of New Hampshire Department of Transportation reports approximately 19,000 vehicles per day on Route 125 and another 17,000 vehicles on Route 4 during the same time period. This survey was last completed in 2006 and we believe the numbers have increased over the past year. Traffic on Route 155 through the center of Lee has increased from 3,100 vehicles a day in 2000 to 4,200 vehicles a day in 2006.

As you will see from the statistical data listed below, the police department's activity continues to increase

STATISTICAL DATA FOR THE YEAR 2003/2004 AND 2006/2007

	2003-2004	2006-2007	Percentage of Increase
Arrest	196	256	30%
Motor vehicle Stops	1775	3043	71%
Accidents	185	208	12%
Calls for Service	4785	6382	33%

As always the members of the Lee Police wish to thank the residents and businesses in the town for their continued support.

Sincerely submitted,

Chester W. Murch
Chief of Police

HIGHWAY DEPARTMENT

Perhaps the most memorable event that affected the Highway Department during the period was the Patriot's Day Flood. The storm started out as snow and warmed into the 50's with heavy rain. This caused culverts to overflow and washouts that most of us have never seen in our lifetime. Although the damage was more wide spread than the 2006 Mother's Day storm there was actually less major damage on town roads and bridges.

During this reporting period the following roads were paved:

- Sackett Rd.- A one inch thick overlay of hot top was applied in June of '07
- Jenkins Rd. -A one inch thick overlay of hot top was applied in June of '07
- Lamprey Ln.)- A one inch thick overlay of hot top was applied in June of '07.
- An area approximately 60 feet long was rebuilt and paved on High Rd by the bridge due to the road being washed out on the Patriot's Day Flood.

During the period all four miles of gravel road had a coat of crushed gravel applied. Magnesium Chloride was applied to Old Mill, Sheep, Cartland, Demeritt, High, and Birch Hill roads for dust control and fines retention.

For the fifth consecutive year the Highway Department has undertaken the mowing and grounds-keeping of the 13 private graveyards with trust funds, the two large cemeteries, the two recreational fields, and the areas around all of the town buildings. The Highway Department also does all of the burials that occur in the two large cemeteries. .

Overall fiscal year 06-07 was a very wet year with many extended rainy periods and torrential downpours that created many washouts along the edges of the roads. The winter of 06-07 started off pretty warm

but got busier as the winter progressed. March and April had more snowfall than the rest of the winter months. The department treated and or plowed 15 storms with total snowfall of 48 inches as compared to the winter of 05-06 that had 23 storms with a total snowfall of 57 inches. The heaviest snowfall was on March 16th with 11 inches of snow, sleet and mix precipitation recorded. There were many branches and trees that came down during this storm and the Patriots Day storm that kept the Department busy for weeks. I would like to thank my dedicated full time employee Warren Hatch; shared employee Peter Hoyt, and part-time employees Dick Wellington, Dave Miner and Jeff Geddis for their dedication and long hours of work during the past winter season.

The town equipment is in generally good shape despite its age, however one of the plow/sand trucks is now 23 years old. The other plow/sand trucks are 7,13, and 17 years old. The Front End Loader is now 18 years old but still going strong. The town purchased a used 2001 plow/sand/dump truck during the reporting period and sold the "85" Ford. Due to the relatively easy winter many delayed repairs were accomplished. The two full-time employees of the department do most all of the repairs and maintenance that are required.

Besides the normal road maintenance and grounds keeping duties some other jobs that were done by the department are as follows:

- Assisted the Transfer Station employees in building a new 20' x 20' building, and hauling sheetrock and glass to markets.
- Excavated, placed loam, and re-seeded the front corner lawns of the Public Safety Building
- Rebuilt ½ of the roof over the old Railroad well/cistern on Rte 125 that got destroyed in an automobile accident.

Also, a number of hours were spent on the following projects:

- Assisted Strafford Regional Planning Commission

updating the town road inventory and mileage.

- Worked on Emergency Preparedness and attended many meetings and training on the subject.
- Worked on developing a Capital Improvements Plan and Inventory for town roads, bridges, and equipment.

During the reporting period Piper Ln. was the only new road to be accepted by the Town. There are now 64 separately named town maintained roads in Lee for a total of 37.5 miles.

We would like to thank the townspeople, Budget Committee, and Board of Selectmen, for their continued support of the Highway Department.

TRANSFER STATION

The townspeople of Lee have one of the most advanced and comprehensive Transfer Stations in the state. This allows us to operate with two full-time and two part-time personnel. This has been a year of change as we hired a new manager, expanded our list of recycling, and started charging for the first time for "Bulky" items. We, at the Transfer Station, appreciate the understanding and cooperation of the townspeople with the ongoing changes that "Bulky Fees" have brought on all of us.

Our total tons of trash have declined slightly, which is good, but our focus remains on recycling. There is where, can by can and box by box we can all make a major change. Thus reducing the cost of regular trash ($100. /ton) and getting back money for the town instead, for the cans, plastic, and papers that average $90. /ton! There still seems to be enough holdouts, that are still too lazy (?) to recycle that we may need to go to PAYT (Pay As You Throw) known as pay- per- bag sometime in the future. A surprising number of townspeople support and encourage pay-per-bag as they will be saving on their taxes from their efforts of their recycling. For the past calendar year we have decreased our recycling tonnage about the same as our tonnage for trash. Now is the critical time to increase our recycling to a point where we don't need to go to pay per bag. Your help is urgently needed.

Our Transfer Station budget request has been submitted and is less than last year even though trucking and fuel costs are up substantially.

There are still two NH towns copying our facility and one in Connecticut that is on the drawing boards.

We are always thankful to our volunteers who keep the Swap Shop running smoothly; Harold Hood, George Durepo, Vern Martin, Paul Gregoire and

Georgia Kerns, our volunteer coordinator.

As for our staff, Thanks to Jennifer Gingras, we wish her well in her new job, our newest member, Frank Reinhold III, our longest service member, Doug Sheehan, and our "anchor" who can fix anything, Peter Hoyt.

Reduce, Reuse, Recycle

Respectfully submitted,

Roger Rice, Manager

Lee Public Library

The Lee Public Library offers each person the opportunity for reading pleasure, community connection, and inspiring lifelong learning.

As an information center, the library's collection includes 22,659 books, 73 magazine subscriptions, 912 audio books and 608 videos and DVDs as of June 30, 2007. In October 2006, additional audio book titles became available to patrons through the library's participation in the NH Downloadable Audio book program. Circulation of materials in FY 06-07 was 50,255. The library has over 2300 registered borrowers.

The library has three public access computers featuring Microsoft Office and Internet access. A wireless connection was established in the fall of 2006 so that patrons can now use a personal laptop computer to access the Internet. In FY 06-07, there were 2338 user sessions for the public access computers, with an additional 116 wireless user sessions.

Other informational resources available through the library's website include EbscoHost, a database of thousands of full text magazine articles; Ancestry Library (for in-library use only), HeritageQuest, featuring census reports and genealogical records; and NewsBank, comprised of full text articles from the Union Leader and NH Sunday News. These resources can be accessed via the library's website at: www.lee.lib.nh.us. In some cases a password is required to access these databases; this information is available at the library. The library's catalog is also available online. Patrons can check the availability of materials and renew items and place reserves from home.

The library fills its role as community center by offering a slate of programming for all ages. In FY 06-07, the library offered 140 programs for children, with 2328 in attendance. Youth programming included story times for toddlers and preschoolers, an after school

program for ages 6-10, and a book discussion group for 5th and 6th graders. Local preschool groups and day-cares also paid a visit to the library for story time. Mastway School students took a field trip to the library to learn more about the history of the library and its role in the community. Special school vacation week programs featuring a film, the Fun Factory Clown Duo and Dan Grady's Marvelous Marionette Medley were held as well. The highlight of the year was the annual summer reading program, "Treasure Reading".

The library offered 29 programs for adults, attended by 332 people. Program offerings included book discussions and author visits, CPR training, and craft workshops that featured instruction in sock knitting, designing holiday centerpieces and creating linoleum print greeting cards. The Armchair Traveler series featured members of the community sharing photos and tales of their travels to Tanzania, Ireland, the Amazonian and Central American rainforests, and sailing the Eastern Mediterranean Sea. A spring gardening series included workshops on seed starting, organic gardening and design, building and maintaining water gardens, propagating perennials, and plant problems and solutions. Local artists featured their work as part of the library's Artist of the Month program.

The library continued to receive generous support from the community and local organizations. Volunteers provided countless hours of service. Families donated new books to the library in honor of their child's birthday. Local gardeners kept the library gardens in bloom throughout the spring and summer months. The Friends of the Lee Public Library donated library memberships to area museums, musical instruments for story time programs, support for the summer reading program, refreshments for the after school program, and a new bookcase to house the children's audio collection. The Friends held their third annual country dance, free for the Lee community.

The library trustees devoted countless hours in drafting the library's long range plan and in updating various policies. Library staff worked tirelessly to develop new programs and to ensure the continued smooth operation of library services. The library is truly fortunate to have such dedicated support in meeting its role as an informational and cultural resource for the Lee community.

Library Director

LAMPREY RIVER ADVISORY COMMITTEE

The Lamprey River Advisory Committee (LRAC) was formed when the Lamprey was designated first as a NH State-protected river, and later, almost half the river became part of the National Wild and Scenic River program. Representatives from Epping, Lee, Durham, and Newmarket meet on the second Tuesday of each month. The meetings are open to the public and are usually held at the LRAC office in the Millpond Center in Durham, at 7 p.m.

The LRAC has a long range management plan and works with the four towns and appropriate agencies to carry out specific objectives annually. More information about the LRAC is forthcoming on our website: www.lampreyriver.com. Our accomplishments for 2006-7 are listed below.

Management Plan Updated. The 1995 plan has been updated incorporating comments from boards and committees in each of the four towns. It is available at our website.

Land Conserved. We have made significant additions to the protection of riverfront land largely through the assistance of two land protection specialists. We purchased a conservation easement on 28 acres of the Burrows property in Durham near the Wiswall Dam. An agreement has been made with the Dow family of West Epping to add 70 acres and 3,3355 feet of riverfront to the Lamprey River Forest, with the assistance of $50,000 from the town of Epping. In Lee the Wellington family land is also under agreement through our partnership with the Wetlands Reserve Program. The Clark family in Epping added to a previous easement by donating an additional conservation easement on 62 floodplain acres along the river.

Recreation Access. We are nearing completion of a tour guide for the river from West Epping through Newmarket in cooperation with the four towns. We will work with the towns to add kiosks, specific trail maps,

historical information, etc. The LRAC has purchased a small strip of land along the river on Highway #152 in Lee which will be turned over to the town for recreational purposes.

Water Issues. As the towns in the watershed grow, there is increased attention to the Lamprey to augment town water supplies. The LRAC continues to be involved with Durham to help initiate an effective water conservation program. One example of this has been helping the town send out in the town's water bills, leak detection kits for toilets.
The town of Newmarket is also beginning to look to water use from the Lamprey to augment its wells.

In addition, the LRAC is contributing its research and knowledge to the development of the state's Instream Flow Study, which is underway to determine how to protect the river's flow levels while accommodating public and private water needs. LRAC members serve both on the Technical Review and the Watershed Management Planning Advisory Committees.

Ecological Issues. The LRAC has hired expert David Carroll to walk the river to more fully document turtle habitat and activity, comparing it to previous surveys. This information will be added to a GIS wildlife map and database that we are creating with the help of the New Hampshire Audubon Society.

The LRAC and the Lamprey River Watershed Association have begun to tackle eradication of Japanese knotweed at Wadleigh Falls. The Watershed Association will be conducting a river survey next summer providing information for a more comprehensive invasive species program.

The LRAC has met with Epping officials to assist in planning improvements with drainage and invasives eradication along the river near the Town Hall.

Outreach and Education. LRAC has presented our exhibit at several fairs and gatherings including the statewide watershed conference. The exhibits includes a popular "Name the Turtle" chart. We have updated our two brochures with current information and they are now available on our website. We continue to offer our Lamprey River Curriculum for all grades, and our book, The Story of Peter Little Bear, a Lamprey River Adventure. The book is available at town offices in Lee, Newmarket, Durham, and Epping. All publications are also available from Sharon Meeker 659-5441.

Goals for 2008

Complete the Lamprey River Tour Guide and have them available in the four towns.

Assist the towns with necessary improvements, kiosks, etc. on properties along the Tour.

Work with towns to develop a program to control invasive species.

Consolidate all our wildlife studies and related material into an easily accessible format.

Work to improve drainage and run-off control issues where needed.

Acquire conservation easements on more undeveloped land along the river.

Continue to work with towns and the University to develop water use policies that aid water conservation.

Work with appropriate town committees to develop historical and archeological information.

Continue to analyze and comment on plans for development that affects the river.

Committee Members:
Lee: Sharon Meeker, Kitty Miller
Epping: Kevin Martin, Chair
Newmarket: Sara Callaghan, Fred Pearson
Durham: Richard Kelley, Cynthia Belowski, Jim Hewitt, Dick Lord, William Hall
At Large: Brian Giles
National Park Service: Jamie Fosburgh, Julie Ibsill

HERITAGE COMMISSION

The Lee Heritage Commission works to preserve Lee's historic agricultural and cultural resources. In addition to monitoring and advising on the building portions of conservation easements, the Commission has begun inventories of Lee's cemeteries, stone walls, and historic structures, and has continued to assist the Town with Discretionary Preservation Easements and work with the University on preserving the Burley-DeMerrit Farmhouse.

Discretionary Preservation Easements
The Lee Heritage Commission continues to aid the Board of Selectmen in implementing the state Discretionary Preservation Easement program for historic agricultural structures (RSA 79-D), which authorizes towns to grant a defined amount of tax relief to barn owners who (a) can demonstrate the public benefit of preserving their barns or other old farm buildings, and (b) agree to maintain their structures throughout a minimum 10-year preservation easement.

The law is based on widespread recognition that many of New Hampshire's old barns and other farm buildings are important local landmarks and help tell the story of agriculture in the state's history. Yet many of these historic structures are being demolished or not repaired. This program encourages owners of historic agricultural buildings to enter into preservation partnerships with their towns which are intended to be mutually beneficial and serve to protect our unique agricultural heritage.

Eight barns in Lee have been approved for this program during its first two years; applications for the coming year are due at Town Hall by or before April 15, 2008.

Burley-DeMerrit Farmhouse

The Lee Heritage Commission has been working with the University since July of 2006 to encourage the renovation of the historic Burley-DeMerrit home. A building assessement grant from the New Hampshire Preservation Alliance last fall led to recommendations including a new roof, siding repairs, and rebuilding one of the chimneys. This October, the Preservation Alliance announced that the Farmhouse made its new list of the seven most endangered historic properties in New Hampshire. The Alliance's 2007 *Seven to Save* program recognizes individual properties in need of attention and resources and highlights the broader preservation challenges that face New Hampshire. Criteria for selection include the property's significance, imminence of threat, and the impact of *Seven to Save* listing. The Commission hopes to partner with UNH to raise private funds to rehabilitate the quickly deteriorating home so that it can be used as a residence and guesthouse for the organic dairy.

Conservation Commission

Members of Conservation Commission: Richard Babcock, Alan Eaton, Laura Gund, Antoinette Hartgerink, Bill Humm (Chair), David Meeker, Tim Moody, Anne Tappan (Alternate Member), Richard Weyrick (Emeritus)

Major Activities of Lee Conservation Commission

Protection of Open Space: The Lee Conservation Commission continues to work with the Town's Board of Selectmen and Laurel Cox, the Land Protection Administrator, to expand the area of protected open space within the Town. The Commission works closely with the Land Protection Administrator to identify environmentally important land parcels within the Town, assist in negotiation with landowners, develop baseline documentation and stewardship plans, and provide financial support, from Commission funds, for survey costs, sales options, and incidental expenses related to land purchase or the granting of conservation easements. In this past year, with the support of the voters, these activities have helped the Town to expand its area of protected land. The willingness of the citizens of Lee to protect open space and fnd for future generations is known and respected throughout the State. We can be proud of this record but must not forget that more needs to be done to ensure that future citizens of Lee will have significant reminders of the rural Lee we now enjoy.

Oversight of the Town's Conservation Easements: The Conservation Commission is charged with the responsibility of overseeing all conservation easements held by the Town. Laura Gund has assumed responsibility for the organization and reporting of this activity. In fulfilling this stewardship responsibility, members of the Commission visit each easement annually to check compliance with the terms of the easement. As the Town's acreage of protected property increases, this has become a major component of the Commission's summer activities. In the past year 23 such site visits

were made and conclusions formally reported to the appropriate oversight organizations. Commission members have also installed signs marking the boundaries of several Town-owned properties.

Advice to Planning Board and Zoning Board of Adjustment: In accordance with its statutory responsibilities, the Commission serves as advisor to the Planning Board and Zoning Board of Adjustment on matters relating to the protection of wetlands and other items of environmental concern. Antoinette Hartgerink has assumed primary responsibility for organizing and reporting this activity. During the period covered by this report the Commission conducted seven site visits involving proposed construction projects, applications for special exceptions, variances to the Town's zoning regulations, or other matters. The site visits resulted in four written reports to the ZBA. In addition to these formal activities, members of the Commission, Richard Weyrick and Antoinette Hartgerink primarily, have provided informal advice to many landowners and/or contractors before and during construction.

Educational and Outreach Activities: The Commission provided information relating to conservation easements and its other responsibilities at the Lee Fair (where it also provided its official fiddler, Alan Eaton). Members of the Commission also participated in events organized and sponsored by Friends of Lee Open Space, Oyster River Watershed Association, and other similar organizations. Alan Eaton has added to the biological inventory (recording the species and abundance of plants and animals) for the entire Lee Town Forest Complex. Copies of the inventory, with color photos, are available to the public at the Town Hall and Library. Members of the Commission have also written articles on various topics for the *Lee Town Crier* and *Lee Conservation News.*

Invasive Species: The Commission is becoming increasingly concerned about the spread of invasive

plant species throughout the Town. It is actively searching for methods to remove or contain those invasives which are most threatening to indigenous species.

4H Conservation Camp Scholarship: In previous years the Commission has awarded one, or more, full scholarships to the Barry 4H Conservation Camp to Lee residents. In 2007 there were no applicants for such a scholarship. Students living in the Town who are interested in applying for a Spring 2008 scholarship award are encouraged to contact a member of the Commission.

Retirement of Alan Eaton. . Alan Eaton has retired from the Commission after more than 6 years, On behalf of the Town the Conservation Commission would like to thank Alan for his many years of collegial service and his exceptional and continuing contribution, represented by *The Biological Inventory of the Town Forests,* which will continue to be of service and interest to the Commission and to the Town. Paul Pepler has been appointed by the Board of Selectmen to replace Alan on the Commission.

.

RECREATION COMMISSION

Little River Park is located just off of Route 155 and is the land in-between 155 and Lee Hill Road and has the Little River as its western boundary. The Park is open now for walking, fishing, birding and sledding. Snowmobiles pass through on the snowmobile trail. All terrain vehicles are prohibited.

Plans for future development of Little River Park are coming together nicely. The Recreation Commission has completed a topographic survey of the former pit floor and adjacent areas and developed engineering plans for family and athletic oriented facilities. A "Site Specific Permit" was granted from NH DES late in 2007 and construction can begin when funds become available.

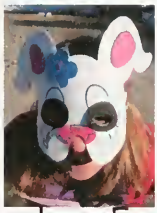
There are serious erosion problems from the former gravel pit operation that will need to be addressed quickly. These erosion problems and the earthmoving required to shape the former pit to future uses can be taken care of at the same time. This would mean funding all of the earthmoving up front rather than piece by piece. Although this requires more money initially, the earthwork would be done and all areas could be seeded and stabilized and improvements made to the park over time rather than to disturb ground for each park improvement.

The steep slopes of the former pit have some areas with erosion that will be planted with native shrubs and plants in the spring of 2008. Anyone who wishes to help plant is welcome. Look for a notice in the Town Crier or the e-news.

A multi-purpose pavilion and a playground are included in the plans. One of the first items to be constructed is the parking lot so that visitors have a place to park that is off the road and near the sledding and walking. Grant money is being pursued to create additional walking trails that will include fitness stations.

Public feedback to the Recreation Commission at the Lee Country Fair has been overwhelmingly positive.

Ongoing recreational activities include pick-up basketball at Mast Way on Sundays, Tuesdays and Thursdays. Anyone is welcome to join in.



The ever popular Egg Hunt was held at Town field the day before Easter to the delight of many children. Brightly colored eggs filled with candy or slips of paper to redeem prizes sent children of all ages scrambling to quickly find as many eggs as possible. Many thanks to Cynthia McClain for organizing the event and to the Friends of Lee Recreation for their assistance. Judy Belanger and her little helpers are responsible for filling over 2,000 eggs with candy and prize coupons. Their hard work is greatly appreciated by all who participated!

The Annual Fishing Derby was a great success. The fish and the weather cooperated as youngsters pulled out fish after fish. We are fortunate that the Stevens Family is willing to host the Fishing Derby at their beautiful farm on Tuttle Road.

Recreation Commission meetings are held on the first Monday of every month at 7 pm at the Town Hall Annex. All are welcome.

Submitted by the Lee Recreation Commission: Phil Sanborn, Jr., Dawn Genes, John Shea, Geoff Carlton, Ann Wright, Dave Young Charles McClain, Cynthia McLain, Paul Kerrigan, and Steve Slovinski.

CEMETERY TRUSTEES

Cemetery Superintendent Randy Stevens and Warren Hatch mowed considerable acreage this year too. Peter Hoyt joined their ranks as working for the Highway Department part of the time earned him the privilege of helping to mow at the Cemetery as well. Matthew Stevens painted the Chesley Cemetery fence with a special paint that will help preserve the ornate iron fence which was repaired and had sections replaced with Jerith fencing, the same as is used at the Lee Hill cemetery. TruGreen ChemLawn was again used at Lee Hill and Old Parish Cemeteries to control grubs, which have been a major problem of late, and to apply fertilizer.

This year the Veterans' memorial stone at the Town Field was cleaned for the first time. Bushes to either side of the stone were pruned back and a large pine nearby had some limbs removed that were hanging down low to the ground and interfering with grass mowing.

At Old Parish Cemetery, a large tree near the outside fence was supporting a lush growth of poison ivy which was sprayed by TruGreen ChemLawn in order to get rid of it and keep it from spreading. Poison ivy control is carried out at all the cemeteries we are responsible for so it does not become a problem.

While we have not gotten the sign for Lee Hill cemetery yet, the bulletin board has been erected and will carry messages such as who the Cemetery Trustees are and how to reach them plus notices of when the cemetery is closed for the winter season , when the water is to be turned on and off, and notices of special interest.

The Trustees were contacted by a lot owner who noted that the pine tree near their lot had dripped sap on their stones and made them very dirty. Randy pruned back the pine limbs and Roy Monument cleaned the two stones involved to a pristine condition.

Work on abandoned cemeteries on private property continued. A special thank you to Scout Howard Hoff III, whose Eagle Scout Project was to clean up and refurbish the Jenkins Family cemetery on Jenkins Road. It looks great! The Chapman Cemetery on the Couse property had its stones cleaned and repaired. The Otis cemetery on the Woodward property had its stones cleaned and repaired and some tree and limb removal done and stumps ground. The owners have agreed to repair the fence at their expense. The Tobias Cartland Cemetery on the Rogers property had its stone cleaned and straightened. The owners had trees removed and have agreed to repair the fence at their cost. We had the stumps ground. The Matthews cemetery on the Hutton property had poison ivy and oak treated and stump grinding done. Owners removed

the trees at their expense and Mrs. Hutton is currently working on locating stones buried under the ground and repositioning them to their proper place. Once this task is completed, the stones will be cleaned and repaired. Once work is finished, all property owners have agreed to maintain these cemeteries. Thank you! Police Officer Tom Dronsfield and friend removed brush and cleaned up the Dame Cemetery on the Sanborn property and Mr. Sanborn disposed of the brush. Thank you! We cleaned and repaired the stones. The Trustees are considering declaring this cemetery officially abandoned and making its care our responsibility from now on. This cemetery is highly visible from the road, has been refurbished once by the Boy Scouts and two times by Durham-Great Bay Rotary, and has gone back to a disreputable state each time. The Trustees would like to prevent this from happening again as we did with the Hoitt Cemetery across from the Maud Jones Memorial Forest.

Thank you to the VFW Post 10676 of Lee for again placing memorial flags on veterans' graves and another thank you to Randy, Warren, Peter, and Matt for keeping the cemeteries looking so good.

Respectfully submitted:
Donna F. Eisenhard, Honorary Lifetime Cemetery Trustee
Marianne Banks
Jacquelyn Neill
Janice Neill

LAND PROTECTION

Land protection in Lee continues to be very active, with the goal of protecting the working landscape of Lee's farms, forests, and the riparian corridors along the Oyster and Lamprey Rivers and their tributaries. The land protection efforts in Lee have evolved to include more community involvement with the newly established Agricultural Committee, community awareness of transportation needs, desire for a town-wide network of trails, the need for more local food production, the summer farmers market, and an increased awareness of the need for responsible land stewardship. We will need these cultivated, wild, and open spaces in the future for the local production of food, fiber, fuel, and clean drinking water for our human population, as well as for habitat protection for the creatures and plants with whom we share our land.

Land Protection to Date

As of September of 2007, we have a town-wide total of about 2,167 protected or town-owned acres, which is almost **17%** of the 12,926 total acres that are in Lee. We have approximately 416 acres that are actively in the process of acquiring conservation easements. When those transactions are closed, we should have a total of about 2,583 acres, which is about **20%** of our total area. This is coming closer to the **25%** figure that the Society for the Protection of New Hampshire Forests was recommending several years ago. (New York City has about 27% of its land in open space!)

2007 Grants for Land Protection

Lee was awarded a **$450,000** grant from the 2007 New Hampshire Department of Environmental Services Water Supply Land Grant Program to help purchase the Old Mill and Snell Road properties of Kelley (48 and 9 acres), and conservation easements for the Tecce (41 acres) and Ford (70 acres) properties on Garrity Road. (The conservation easement for the

Ford property is a landowner donation valued at **$610,000**.)
The Lamprey River Advisory Committee has agreed to fund up to **$55,000** in matching funds for the conservation easement for the 25-acre farmland of the Lee portion of the Kelsey property on Lee Hook Road. (The Wetland Reserve Program is funding the conservation easement and wetland reclamation projects for the 105-acre Durham portion of the farm.)
We are receiving a **$100,000** grant from the Landowner Incentive Program (LIP) of the NH Fish and Game, which helps private landowners pay for part of the costs of conservation easements that are designed to encourage wildlife habitats.

2008 Grant Applications Pending
Lee is in the final stages of a **$104,000** grant application from the 2008 NHDES Water Supply Land Grant Program for an Oyster River watershed property.
Last year Lee applied for up to **$2.8 million** in matching grants from the federally funded Coastal Estuarine Land Conservation Program (CELCP). It was first a state competition, in which the top three state applications move on to the national level. Ours qualified, and we learned in September that Lee's application ranked number 11 out of 44 applications in the nation and has a good chance of securing the funding.

Land Protection Funding Programs
The US Department of Agriculture (USDA) Natural Resource Conservation Service sponsors the Wetland Reserve Program (WRP) that is designed to protect river corridors and wetlands. It is especially interested in reclaiming former wetlands that had been drained to become marginal agricultural fields. We are able to use this program as a match for the NH Department of Environmental Services grant in order to pay for both conservation easements and fee simple purchases for the Old Mill Road properties along the Oyster River that the town voted to protect in

both the 2006 and 2007 town meetings. Next year we are looking at possible WRP easements on about eight more properties.
This program is particularly attractive to the town because WRP can pay up to **100%** of the cost of the easement, all of the transaction costs, and will also pay for necessary wetland reclamation costs. The help with reclamation, both financially and in technical support from NRCS, is particularly helpful for the five Old Mill Reserve properties, three of which have old gravel pits that need recontouring and revegetating. The NRCS is pioneering some new techniques using warm season native grasses and other dry land species that will require minimum maintenance for the town, but will provide an attractive wild area that will be accessible to the public. They are partnering with other state and local agencies, including the NH State Nursery and the Strafford County Conservation District for obtaining plants.

The USDA Farm and Ranch Protection Program is appropriate for actively farmed open farmland that has good soils. We plan on two spring 2008 applications for this program, which offers a 50% match to other funds, which can come from the landowner in the form of a donation, or from local or state funding sources.

The NH Department of Environmental Services Water Supply Land Grant Program has been very helpful to the protection of properties along the Oyster River. Their priority is the protection of both present and potential municipal water supplies, so the Lee portion of the Oyster and Lamprey Rivers are very important because of their roles as major municipal water sources for both the town of Durham and the University of New Hampshire.

The Lamprey River Advisory Committee has been a major supporter for conservation easements along the Lamprey River, which is a federally recognized Wild and Scenic River. The LRAC has actively sup-

ported land protection in Lee by helping to fund the Land Protection Administrator job for work done on Lee properties along the Lamprey River.

UNH Burley-DeMeritt and Bartlett-Dudley Farms
Lee is working actively with the University of New Hampshire, through the Lee Heritage Commission, to protect both the land and the historic Burley-DeMeritt Farmstead on Lee Hook Road. We secured a grant from the New Hampshire Preservation Alliance last winter to assess the condition of the farmhouse and are now preparing other grant applications for further planning, designing, and execution of the project. The project includes placing conservation easements on most of the 320 acres of the Burley-DeMeritt and Bartlett-Dudley Farms, which have major frontage on both Lee Hook Road and the Lamprey River. The Selectmen of Lee have been working toward the protection of these farms for over 20 years because of the importance of these farms to the agricultural heritage and rural character of the town of Lee.
The Seven to Save Program of the New Hampshire Preservation Alliance recognized the Burley-DeMeritt farmhouse as one of the seven most significant but endangered historic buildings in the state at their meeting in September. The farmhouse was also determined to be eligible for inclusion on the New Hampshire State and National Registers of Historic Places last year. This formal recognition of its historic significance in Lee's history should help in applications for outside funding for the protection and preservation of the farm.

Cooperation with Neighboring Towns
Lee was unable to secure the protection of the Chesley Brook Farm on Packers Falls Road last year, so this year has worked actively to transfer the **$340,000** Farm and Ranch Protection Program grants to help the towns of Madbury and Durham acquire conservation easements to protect part of the Roselawn Farm, off Perkins Road in Madbury. This

was an excellent example of regional cooperation, and kept the Lee grant money in our local neighborhood, rather than having it returned to Washington, DC.
The Tri-Town Greenway group from Durham, Lee, and Madbury met with the Durham Conservation Commission to present information about the almost 2200-acre Tri-Town Greenway that includes land in all three towns, along the Oyster River, Cherry Lane, and Beech Hill neighborhoods.
Lee works actively and cooperatively with our neighboring towns, county, regional, and state organizations in securing the protection of open space. The Oyster and Lamprey River Watershed Associations involve community members in the need to care for and monitor our precious riparian corridors.
The Lamprey River Advisory Committee has begun to identify specific neighborhoods of concern along the river, such as the Wadleigh Falls and Lee Hook areas.
The Strafford Regional Planning Commission continues to be a major help in supplying maps and aerial photographs, as well as basic soils and statistical data that help in the preparation of grant applications.
The publication of the NH Fish and Game Wildlife Action Plan and the NH Coastal Program's NH Coastal Plan, with their accompanying maps of identified conservation focus areas and careful analyses, have been very helpful in supporting our grant applications.
The publication of the NH Fish and Game "Wildlife Action Plan" and "The Land Conservation Plan for New Hampshire's Coastal Watersheds" of the NH Coastal Program, with their accompanying maps of identified conservation focus areas and careful analyses, have been very helpful in supplying data for our grant applications.

There is an increasing awareness of the need for local agricultural and energy production. The schools and community groups are using more local foods in their programs. The Lee Hill 4-H group is very active, and the Ag in the Classroom program reaches over 1000 fourth graders through its program at

UNH every June. The Strafford County Farm Bureau had its annual picnic in Lee this year, featuring a display of biodiesel production. The Lee Agriculture Committee sponsored Lee Farm Day, at which 13 farm sites, most protected, or in the process of being protected, by conservation easements, were open to the public, with many farm activities and displays.

Lee continues to be recognized throughout the state for its commitment to the protection of its farm and forestlands, especially because that commitment extends to the "working landscape" by its encouragement of active and sustainable forestry and agricultural activities, which also help build a strong community.

COMMUNITY GARDENERS

Your loyal town garden volunteers have been hard at work, come rain (refer to picture) or heat wave. We hope you have noticed!

The Safety Center: With the help of Randy and his team, two Snowdrift crabapple trees were planted by the entrance and exit to the safety complex. Do keep a lookout for them blooming in the spring.

The Recycling Center: Operation Upgrade is a project in process...

Phase 1: Our successful spring planting of blueberry bushes was followed, as you may have observed, by an alarming weed event mid-summer. Thanks to the heroic effort of the crisis extermination crew and a covering of black plastic, the problem was resolved, and with the help of a Master Gardener Association grant and nine enthusiastic Brownies, 150 daffodil bulbs are now in place near the blueberries. Next, before snowflakes fall, winterberry bushes and two viburnum shrubs will be added.

Phase 2: spring/fall 08

In accord with our goal of creating a "sustainable garden" the plan calls for a screen of hemlocks to the northeast, as well as more native shrubs, plants, wildflowers, and ground covers in the area.

Our vision is limited only by our stamina. Maintenance of all the town gardens is on-going and your help is needed. We WELCOME new energy and enthusiasm, so do JOIN our ranks and help us make Lee town spaces become ever more eye-catching.

FRIENDS OF THE LEE PUBLIC LIBRARY

The Board of Directors continues with fund raising projects to enhance support of the library:

The Holiday Open House tour of six historic Lee homes and the Lee Church Congregational was held early in December. The homeowners were gracious to open their homes for the holiday season of touring, history, baked goods, and friendly conversation.

Local nurseries and florists assisted with donated items for decoration. Lee Town Hall personnel and historic pamphlets of Lee which aided with the history of each home and the church were included in the brochure.

Membership in the Friends continues with a great deal of support from the community. We gratefully thank all who have joined to become the large group of Friends of the Library.

The Lee Community Cookbook, book bags, T-shirts, aprons, note cards, and Yankee Magazine Community Partners subscriptions were on sale at the library.

The monies raised from these endeavors are used to purchase, support, and enhance the capabilities of the library. This year the Board has approved the following:

1. Support for the summer reading program, including books, performers, storytellers, reading incentives, and snacks.
2. Dan Grady – marionette performance
3. Magyk books
4. Wrist bells and rhythm sticks
5. A new wooden library bookcase
6. Audio cases for the Young Adult Collection
7. Refrigerator magnets – with Lee Public Library information (hours of operation, address, phone and fax numbers and email address)
8. Snacks for the after school reading program
9. Museum passes for Currier Museum of Art,

Canterbury Shaker Village, Strawbery Banke Museum, Museum of Fine Arts, Boston, Portsmouth Children's Museum and, shared with the Madbury and Durham Libraries, the Boston Children's Museum and Boston Museum of Science.

A Country Dance was held at the Lee Church Congregational in November for the community and friends. Participants enjoyed a variety of dances, fun, and food.

Baked goods (courtesy of Friends members) and beverages were made available at Town Meeting.

Thank you to all Friends' members and community members that have contributed time, expertise and support-all critical to the success of the library.

Respectfully submitted:
Phyllis Foxall (Co-President)
Board of Directors
Friends of Lee Public Library

LIBRARY BOARD OF TRUSTEES

In FY 2006-2007, the Lee Library Board of Trustees accomplished the following:

Pay Equity for staff: We completed a pay equity study for the library staff, examining each staff position and responsibilities. Included in the study were comparisons of Lee with towns of equivalent size, educational level, median income, and levels of library activity. This study was submitted to The Board of Selectmen.

Policy work: The board revised the library's circulation, color copier, and printer policies and approved a Public Access Computer Policy and Wireless Access Policy;

Long Range Planning: As part of their management role, the trustees continued to develop their long-range plan for the Lee Library. As part of this two-year process, the trustees utilized the Library Consultant's Report, attended workshops on library renovations, and visited new libraries in order to research the many aspects of library design and use. In the fall of 2006, the trustees met with different town groups and commissions to share information on what they had learned and gather citizen input on the needs of the library. The trustees developed a Library Capital Improvement Plan (CIP) which incorporated this research and input and was submitted to the Lee Planning Board as part of the CIP process approved at town meeting. The existing library building neither meets requirements for a town the size of Lee nor complies with federal and state-mandated guidelines for handicap access, weight loads, fire and building codes, etc. As the library can no longer fulfill its mission to the Town of Lee with respect to access to resources (hard and electronic), the trustees recommend that a new library be included in the Town's Capital Improvement Plan.

Board Membership: In March 2007, two new members were elected to the Board of Trustees: Katrinka Pellecchia and Cynthia Giguere-Unrein. We would like to thank

our two retired board members, Cathy Swanson and Lori Lavac for their dedication and service to the Lee Library.

The Lee Library Board of Trustees are pleased to recognize the professional and dedicated library staff and the library's patrons, whose support and patronage help to rank us first among our comparator towns. The fact that our library is used as much as it is despite its inadequate space is a testament to both our staff and the residents of Lee.

The trustees look forward to another challenging and rewarding year with our gem, the Lee Public Library.

Respectfully Submitted,
Lee Public Library Board of Trustees

Margaret Dolan
Carol Evans
Annie Gasowski
Cynthia Giguere-Unrein

McGregor Memorial EMS
(formerly Durham Ambulance Corps)
2007 Lee Town Report

"Committed to Compassionate Excellence"

McGregor Memorial EMS is a regional, non-profit organization providing emergency medical services and education to the communities of Lee, Durham, Madbury, and UNH. Our volunteers include residents of Lee, Durham and Madbury, and students at UNH. Founded nearly four decades ago in memory of Dr. George G. McGregor, this year we will be celebrating our 40th anniversary providing exemplary emergency services to the community. McGregor maintains an organizational commitment to excellence, and prides itself on being one of the most cost-effective, highly trained and professionally organized ambulance services in the state. Compassionate service is the hallmark of our organization. To learn more about McGregor, visit our website at www.mcgregorems.org or call us at 862.3674.

Statistics. In 2007, McGregor responded to 335 calls in Lee, a 36% increase from 2006. In addition to the calls in Lee, we responded to 996 calls in Durham and on the UNH campus, 103 calls in Madbury, and 78 calls to other communities. For 2008, we are projecting approximately 1500 calls total.

2007 Accomplishments

Significantly Increased Hours Volunteered On-Call

Volunteer hours increased 25%

- 15,000+ hours volunteered in 2007 (est.)
- 12,000+ hours volunteered in 2006

This is the fundamental basis for our ability to deliver call coverage 24x7.

High Performance

McGregor's availability is one of the best in the state.

- 99.3% availability of McGregor's two front-line ambulances (2006)

Over 700 "Community CPR Heroes" Trained
McGregor EMS is the largest provider of CPR training to the local community.

- **700+** "Community CPR Heroes" were trained in 2007
- Provided at low cost in partnership with Lee, Durham and Madbury public libraries

CPR Safe School Training and Certification Program
McGregor EMS began its CPR Safe program in 2006. Schools are certified as CPR Safe when they have one or more defibrillators (AEDs) available and have trained over 75% of their teachers and staff in CPR.

- McGregor EMS has trained and certified the following Oyster River schools as CPR Safe:
  - Moharimet Elementary
  - Mastway Elementary
  - Oyster River Middle School
- McGregor EMS has CPR Safe program has been cited by the NH State Dept. of Education as a model for other schools.
- McGregor purchased additional defibrillators for the schools using $6,000 in community donations.

Homeland Security Grant Award
McGregor received a Homeland Security Grant for new protective clothing, increasing readiness for both day-to-day and large scale emergencies.

- This grant saved taxpayers $50,692.
- We have applied for a $38,000 grant to fund new communications equipment, and are hopeful that it will be awarded.

School Emergency Medical Equipment Maintenance Program
At no cost to the schools, McGregor now maintains defibrillator and oxygen equipment at the Oyster River schools.

- This program, together with the CPR Safe program, saves the schools over $5000, which they had previously paid to a for-profit company.

Paramedic On-call Program
24 x 7 on-call paramedic program added to provide enhanced coverage to the community.

- A McGregor paramedic is available 98% of the time.

Station Renovations
Extensive renovations of our station were done to enhance operational readiness and help retain and attract volunteers.

- McGregor volunteers donated hundreds of hours of labor.
- Paid for with donations from the McGregor Building Fund.

McGregor Institute of EMS "Committed to Excellence in EMS Education"
Among the largest centers of education for the EMS professional in the Seacoast.

- Offers low-cost CPR to the community.
- Provides crucial education to EMS professionals living in the Seacoast and beyond.
- Financially self-sustaining.
- Reduces cost of providing EMS coverage, saving our communities over $40,000 per year.

Feedback from Customers
A list of our accomplishments for the year would be incomplete without feedback from our "customers"—the patients we transported to the hospital. Here's what they had to say in written survey responses:

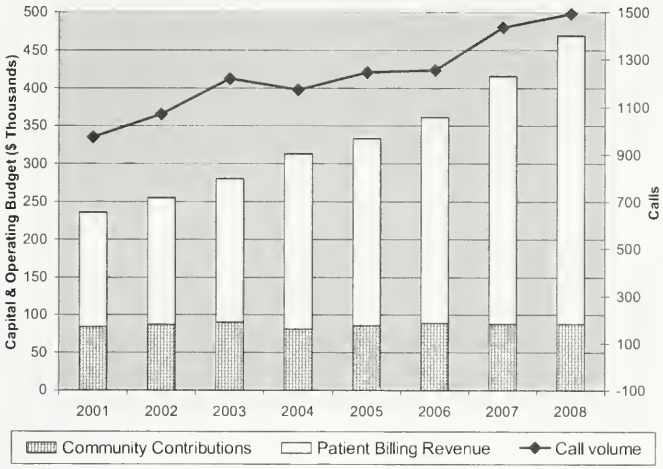
"I deeply appreciate the quality of care, the sensitivity and compassion, and the reassuring presence exhibited by the EMTs who helped me. Positive, supportive and informative. Very professional. I felt very confident and reassured by their skill, knowledge and 'bed side manner'...My deep thanks."
McGregor Patient, 2007

"Because of the quick response, I feel as though my daughter was getting the best quality care. She was extremely frightened and was calmed by these professionals whose concern at all times was my daughter. I love them! In the extreme heat of the day, the situation, and the unknown seriousness of the accident, these EMTs who responded so quickly were not only courteous, professional, and caring, but also were very calming for the accident victim. They also made sure to stop in to see my daughter before they left the hospital. They spoke directly to her about being brave, and doing everything the asked her to do perfectly. They took the time, which is a rare commodity these days."
McGregor Patient, 2007

Call Volume Trends

	2002	2003	2004	2005	2006	2007
Annual Calls	1096	1262	1181	1262	1288	1512
% Increase	8%	15%	-6%	7%	2%	17%

Community Budget Contributions Versus Total Budget & Call Volume



- **No increase** in money requested from the towns (i.e. community contributions) despite an increase of 17% in call volume

CPR and First Aid Training

We are proud to be the largest provider of CPR training to the communities we serve.

Community CPR Heroes

trained by McGregor

2006 250+ local CPR heroes
2007 700+ local CPR heroes

Ordinary people living and working in Durham, Lee, Madbury and UNH who have learned to do an extraordinary thing—
Save a Life.

Advanced Life Support (ALS)

- 61% of patients required ALS in 2007, usually a paramedic
- the need for ALS has increased significantly in the last five years
- 2007 marked our 20th anniversary providing ALS to the communities we serve

McGregor Memorial EMTs

- 6 Paramedics (1 Paramedic-in-Training)
- 13 Advanced EMTs (Intermediates)

23 EMT-Basics

THE HOMEMAKERS HEALTH SERVICES

Thanks to our partnership with the Town of Lee over the past several years. The Homemakers Health Services has successfully provided critical home health, home support and adult medical day care services to those residents of Lee who do not have the ability to pay for them.

Since 1974, our mission at The Homemakers has been to help older and disabled Strafford County residents remain independent, in their own homes and out of nursing homes, by providing professional, cost-effective, quality home health, home support, and adult medical day care services.

Annually, our Agency provides nearly $3.5 million worth of home health, home support and adult medical day care visits to elderly and disabled persons throughout the County. These visits include skilled nursing, rehabilitative therapies, medical social work, home health aide, homemaker, adult in-home care, Alzheimer's respite, and adult medical day care services.

As health care professionals, we at The Homemakers are committed to providing these services to all of those in need, regardless of a person's ability to pay. Over the past three years, The Homemakers has provided an annual average of more than $211,590 worth of nonreimbursed home health, home support, and adult medical day care services.

Each year through our annual Charity Care fundraisers, The Homemakers has successfully raised more than half of the cost for nonreimbursed services provided.
Despite our success with such events, the cost of providing services for which we are either not reimbursed at all, or inadequately reimbursed by Medicare and Medicaid, continues to exceed the amounts raised through these events, and it is a continuous struggle to carry these losses.

We look forward to continuing our partnership with the Town of Lee to provide health care services to those Lee residents who cannot afford the cost of the vital health care services they need to remain healthy and independent in their own homes.

During Fiscal Year 2007, The Homemakers:

- Provided 14,736 skilled health care visits throughout Strafford County, which included nursing, rehabilitative therapies, medical social work, and home health aid visits;
- Provided 24,082 home support visits, which included homemaker and in-home care provider visits;
- Provided 44,929 hours of Adult Day Care for older and disabled person as well as respite for their caregivers;
- Offered numerous community wellness programs including flu clinics, Alzheimer's Educational Seminars for Caregivers, monthly Strong Living, Aerobics of the Mind, Friend to Friend, and free Advance Directives seminars. We have also facilitated a monthly Alzheimer's Support Group and hosted a weekly TOPS (Take Off Pounds Sensibly) chapter.
- Delivered more than 200 Holiday Food and Gift baskets to elderly and/or disabled people throughout the county.

In recognition of The Homemakers' dedication and contribution to the health of elderly persons in our community, Citizens Bank New Hampshire and WMUR-TV named The Homemakers Health Services as its 2007 first quarter Champion in Action in the area of Elder Support,.

The Champions in ActionSM program is designed to recognize and support non-profit organizations for their contributions to New Hampshire communities.

Lamprey Health Care

Lamprey Health Care is a 35-year-old nonprofit community health care organization providing primary medical services, social services, information and referral, and transportation to seniors and disabled residents of Lee and thirty one other communities. We wish to thank the citizens of Lee for their continuing support.

- **Primary care medical services** span prenatal to geriatric age groups. No one is refused care because they cannot pay—a sliding fee scale is available. Other community health programs are substance abuse and mental health services, prevention and education activities (diabetes, asthma, nutritional counseling, HIV/AIDS testing and counseling, breast and cervical screening program), and social services. Our goal is to remove barriers that prevent access to care.
- **InfoLink** offers free, confidential, comprehensive information and referral to local and national social service organizations and support groups. InfoLink's expertise provides the link to community resources when help is needed. A friendly, caring professional is available weekdays **1-888-499-2525** M-F 9-5 or our online database www.infolinknh.org can assist anytime.
- **Senior Transportation Program** enables elders and adults with disabilities to remain independent and safe in their own homes by providing access to essential services such as rides to weekly shopping, medical appointments, and recreation. This door to door service makes transportation available for groceries, the pharmacy, post office or bank, and day trips. All buses are handicapped accessible.
  659-2424 M-F 8-4

Thank you to the town of Lee.

Debbie Bartley
Community Services Manager
(603) 422-8220

Strafford Regional Planning Commission

Strafford Regional Planning Commission (SRPC), a political subdivision of the State of New Hampshire, serves in an advisory role to the Town of Lee and seventeen other member communities. We provide professional planning services to help officials, boards and citizens to manage growth and facilitate regional collaborative efforts.

SRPC's professional staff offers a range of planning services in transportation, land use, conservation, economic development, downtown revitalization, and geographic information systems (GIS) mapping and analysis. These services are available in customized modes to meet the diverse needs of the volunteers who are the foundation of communities. Our member communities also have access to additional SRPC educational resources including our website, newsletter, library, guides, workshops, forums, and personalized training.

SRPC conducted the following projects and initiatives for Lee in 2007:

- Provided GIS mapping services to Planning staff and the Conservation Commission
- Met with Economic Development Committee to discuss creation of zoning districts.
- Provided assistance with Route 125 Corridor Study.
- Provided assistance with capital improvement plans.
- Assisted the Land use administrator on land protection applications and grants.

SRPC also provided the following services to Lee and other municipalities in 2007 including:

- Established a Regional Impact Committee, which in 2007 reviewed 3 developments determined by local Planning Boards to have potential regional impact.
- Coordinated our communities' responses to the update of NH Ten Year Transportation Improvement Plan.
- Hosted a Riparian Buffer Workshop with NH Es-

tuaries Project to help communities protect water quality.

· Completed the Route 125 Corridor Study from Route 101 north to the Spaulding Turnpike including a buildout analysis and recommendations for transportation projects and land use changes.

· Updated the Regional Travel Demand Model for traffic modeling and air quality conformity analyses.

· Prepared a Model Drinking Water plan for Protection of Surface Water Supply Areas Ordinance as part of the *Innovative Land Use Planning Techniques* with Dept of Environmental Services and NH Assoc of Regional Planning Commissions. http://www.des.state.nh.us/REPP/ilupth/20070805_drinking_water_supply.doc

· Distributed *New Hampshire Planning and Land Use Regulation* books to all local land use boards.

We look forward to working with the citizens and officials of Lee in 2008. Thank you for the opportunity to serve you and for your continuing support of regional planning. Further questions or comments can be referred to Cynthia Copeland, AICP, Executive Director at jc@strafford.org.

Please visit our website at www.strafford.org.
